Gus Hall was an extraordinary man from an extraordinary time. Gus was one of the most famous American Communists of the 20th century.

Known for his working class fortitude and dedication to the struggles for socialism and human dignity, Gus left an indelible imprint on the communist and workers' movements in the U.S. and across the world.

Gus' life and experiences are an inspiration for all who hope to live meaningful lives.

Gus was a well-respected political activist, Marxist theorist and author. He ran for President four times on the Communist Party ticket, organized steelworkers in Ohio's Mahoning Valley, was a leader of the "Little Steel" strike and was jailed for eight years in the McCarthy period.

*The family has asked that contributions in Gus' honor be made to the People's Weekly World, Political Affairs or the Communist Party.*
