## What other Communist Parties and organizations are saying...

---

### Spain

Congratulations on your step forward to the reorganization of a Leninist organization in the U.S.

Dear comrades,

We would like to salute the decision of changing your name from NCC to Party of Communists USA.

Undoubtedly, this means an important step which will be followed by many others in the path to socialist revolution in your country.

Wishing your Party all the best.

Comradely,  
Ástor García  
Head of the International Area  
PCPE (Communist Party of the Peoples of Spain)

### Mexico

"Congratulations on your step forward to the reorganization of a Leninist organization in the US. Congratulations on your step forward to the reorganization of a Leninist organization in the US."

### Russia

Dear comrades,

Greetings from  
Russian  
Communist  
Workers Party!

Thank you for your letter. We translated it into Russian and it's now displayed at our party site: <http://rkrp-rpk.ru/content/view/11167/1/>

Your message addressed to the communists of USA is quite close to our perception of the international communist movement's problems. As you know the worldwide process of separation from opportunists has been under way in various communist parties. The process can take different forms: i.e. theoretical struggle, creation of fractions, organizational delimitations. Such processes not necessarily lead to creation of exactly Marxist-Leninist parties – we can recall a number of examples of creating opportunistic clones pretending to be a genuine communist party (like various clones of the main opportunist party in Russia, the CPRF). As to regards your appeal we support it and we hope to establish closer ties with your movement

We'd also like to add that the right bias mentioned in your letter is not only characteristic of the situation in the communist movement of USA, it can be also observed both in Russia and in the group of Solidnet parties (the movement of IMCWP). We can provide you our analysis of opportunism in CPSU that led to the temporary defeat of Socialism in USSR and how these processes continue nowadays (unfortunately most of the materials are yet available in Russian only). Meanwhile there is attached an article on the history of our party which will help you to understand our positions better. We also send you a recent article dedicated to the concept of "Exported Fascism" written by our comrades.

Best regards,  
Andrey Chabanenko

Dear Comrades,

The Central Committee  
Members of the  
Palestinian Communist

Party are very pleased and joyed with the establishment of the Party of Communists, USA (PCUSA), based on Marxist-Leninist ideology.

Frankly speaking, we were fed up the Renegade CPUSA lead by Sam Webb after the Death of our comrade Gus Hall.

Therefore, we are happy to receive any information, literature, and papers from your Party.

Congratulation and wish great success in serving the American Working Class and the Proletariat worldwide.

Long live (PCUSA)  
Long live Communism  
Long live International Proletariat.  
Comradely Greetings,  
The Palestinian Communist Party (CC)

### Zimbabwe

The Zimbabwe Communist League sends its fraternal greetings to the Party of Communists USA on its inauguration. *We do not normally approve of breakaway Communist parties.* In this case the continued support by the CPUSA for the Democratic Party, in particular for the psychopathic Obama, even if qualified, cannot be supported. We recognize that within the USA, the Democratic Party offers marginally better conditions for the working class and the poor, but outside the borders of the USA, their record is far worse.”

The comrades who were publishing the journal **Ideological Fightback**, issued this open letter titled “AN OPEN LETTER TO OUR COMRADES WHO ARE UNEASY AND DISSATISFIED WITH THE CURRENT ANTI-LENINIST SOCIAL DEMOCRATIC DIRECTION OF THE FACTION THAT CALLS ITSELF THE CPUSA”. In this letter they have exposed the liquidationist and bureaucratic tendency of the existing leadership of CPUSA that has become thoroughly

revisionist, with no chance of returning back to the revolutionary Marxist-Leninist tradition. That is the reason why the comrades have constituted themselves in a new party the Party of Communists USA. Though, we do not support splitting of existing Communist parties, but in such case where the parent party becomes thoroughly revisionist and anti-ML, it becomes the duty of revolutionary Communists to come out of such entity and wage a fresh struggle from new platform. With the character of CPUSA very clear, we fully support the comrades of Party of Communists USA. On behalf of comrades of *Other Aspect* we sent our revolutionary greetings to the comrades and hope that under the new party the Communist movement in USA will go to higher level of struggle and a step closer to achieving Socialism.

Red Salute to Party of Communists USA  
Long Live Marxism-Leninism
