### CREDO OF NORTHSTAR COMPASS

Northstar Compass is the organ of the Organizing Committee to establish an International Council for Friendship and Solidarity with Soviet People in their struggles to restore the multinational Soviet Union as a Socialist State. Northstar Compass carries on the traditions of the "Hands Off Russia Committees" which was internationally established in 1918 to help protect the young Soviet Republic from foreign intervention. The aim of all Friends of Soviet People is international co-operation in building socialism and solidarity with the Anti-Imperialist forces of the world who are struggling and fighting against U.S. Imperialism - the main enemy of mankind. Northstar Compass is the voice of all the Friends of Soviet People.

Northstar Compass acts as a unifying force to consolidate and help co-ordinate the Anti-Imperialist forces of the world with the ongoing movement to restore the Soviet Union. We act as a united front, but we are not a forum for ideological debates. Soviet people themselves will choose the path towards socialism. □

# THE DIRTY "BIG LIES" OF U.S./NATO'S HIDDEN AGENDA

By RAY STEVENSON  
Associate Editor

Sixty days past (as this is written) the US/NATO undeclared war of aggression on the Yugoslav people and state. Nineteen Governments of 19 states people by something more than 750 millions had assembled an air armada with striking forces unequalled in all of history, began the ongoing "terror bombing" campaign on the less than thirteen millions living in the sovereign state of Yugoslavia. Without pause or respite a minimum of 5,000 sorties have swooped down with their death and destruction on the defenseless Yugoslavs. Cities and countryside alike have been decimated, hospitals, foreign embassies, schools, bridges, cultural treasures, Serbia homes and state infrastructures reduced to rubble and a probable tens of thousands killed, maimed, crippled and absolutely without "discrimination."

This, say the heads of state, the spin-doctors and immaculately dressed and beribboned generals by way of a coordinated way of "explanation" for "humanitarian" purposes and to uphold the 18th century "theory" of Interventionist "war-aims" (that is now peddled as "humanitarian intervention") AT ANY AND ALL TIMES IN THE INTERNAL AFFAIRS OF ANY OTHER NATIONS BY WHATEVER VIOLENT, WAR MEASURES ARE DEEMED NECESSARY

### TO EFFECT COMPLETE "UN- CONDITIONAL SURRENDER"

When this is repeated often enough as "the BIG LIE" people are supposed to believe it and accept it. But it is a lie and whether it be Clinton, Blair, Chretien, or any other of this new crop of ideological "Attila the Hun" the cowardly war of "Cruise missiles" and laser bombs is rooted in the despicable "terror bombing" than began in Guernica, Spain in 1937 during the Spanish Civil War against Fascist Franco and saw its "greatest accomplishment" when the U.S. military and Government dropped nuclear destruction on Hiroshima and Nagasaki, killing hundreds of thousands, as well as the "fire-bombings of Dresden, London, Coventry, Berlin and on and on in an endless list of the destruction of innocent people and their communities. Military experts, however, are agreed that such devastation is simply a prelude to the oldest war maxim...that occupation on the ground by armed troops is the sole guarantor that will force "unconditional surrender" terms on an enemy.

When the US/NATO command set forth their "five point" surrender terms on President Milosevic, they were as aware of that truth of war-strategy as was Napoleon, Von Clausewitz or Winston Churchill. What then is involved in the "bed-time" lies of

"humanitarian intervention" to end 'ethnic cleansing' and the alleged refusal to mobilize "ground troops"... or to try and give the false impression that "ground troops" would never, never, never be used.

In the first place the ONLY realistic route for ground troop entry into Yugoslavia is not only at the wrong end of the country (in the north through Hungary) but equally bedeviling, the northern part of Serbia has literally hundreds of thousands of Hungarian nationals living there side by side with the Serbian majority. Military invasion from Albania or Macedonia in the South into Kosovo, a Serbian province despite a majority of long term Albanians there) is practically impossible, and would be very costly against a determined Serbian defending force, because of the mountainous terrain.

But yet another salutary factor for the "no ground troops is the well recorded MILITARY fact that the Yugoslav Partisans in World War II tied down 20 to 24 crack Nazi divisions and DEFEATED THEM IN DEFENCE OF THEIR NATIVE TERRITORY. It was an immense contribution to the final V-E Day in May, 1945, and it is not exaggeration to speculate that Canadian, U.S. and or British troops survived that monstrous war because of the Yugoslav sacrifice and war effort.

In a geo-strategic sense the prolonged U.S./NATO bloody terror campaign, without precedent in human affairs, prolonged and savage beyond human experience (with few notable exceptions) appears to be baseless since NOT A SINGLE DISCERNIBLE OR NATIONAL INTEREST OF ANY OF THE AGGRESSORS IS OR WAS THREATENED, ENDANGERED BY PRESENT YUGOSLAVIA! The sole peg

upon which the exercise in brutality, is hung is the very questionable "spin-doctor" phrase "ethnic cleansing". History informs us that what generally is understood by this phrase, has been an ongoing activity of capitalist governments for centuries. We could point to the "Highland Clearances", by the British capitalists to feed men into the new textile industries and their armies to subdue and wantonly murder the peoples of India, Africa, the Middle East...all in the interests of greater "profitability" and "super profits". Or we could point to the U.S. wars of aggression against the Seminoles, Navahos, Apaches, Sioux, Lachotas etc. etc., or the takeover of Texas, New Mexico, California from the sovereign state of Mexico...to say nothing of the slave trade and enslavement of Black Africans...all in the name of "profitability"!!! And while we are at it let us not forget the "ethnic cleansing" in Canada of Cree, Algonquian, Ojibway et al on "reserves", where we have put them. *"Let he whose hands are clean, cast the first stone"*...but please do not insult our intelligence with prattle about "ethnic cleansing" as an excuse to carry forward genocidal bombing against our war allies and friends, when no Canadian, or other "national interest" is involved.

If a line be drawn south on the European map from the Baltic to Greece it will cross Poland, the Czech Republic, Slovakia, Hungary, Roumania, Slovenia, Croatia, Bosnia-Herzegovina, Macedonia and Greece, and if you will, Turkey. Each of these in one way or another is a member, a satellite or aspirant to the NATO "Murder Inc." club. Missing from this list of NATO's PRESENT MILITARY ENCLAVE is YUGOSLAVIA, under the Government of

President Milosevic, (now NATO's arch-demon) but in reality chargeable essentially with seeking to preserve the national sovereignty of what is left of the Yugoslav Federal Republic. That Kosovo has been and is a vexatious problem for his Government, particularly with the German-Haspburg-intelligence forces, standing behind the so called Kosovo Liberation Army that seeks total secession of the province, no one should doubt. The KLA, linked to the Mafia, drugs and the CIA, has been encouraged in their military forays and assaults against the sovereignty of Federal Yugoslavia. It now appears to have the total, unrestricted support of the U.S. Pentagon masters of bloodletting and bomb assaults. Let it not be forgotten, that since the emergence of the Cold War the U.S. bomber fleet has bombed unremittingly where ever and when ever U.S. perceived "vital interests" are "claimed" to be "at risk". Millions have died, governments from Iran to Nicaragua to Grenada, to where

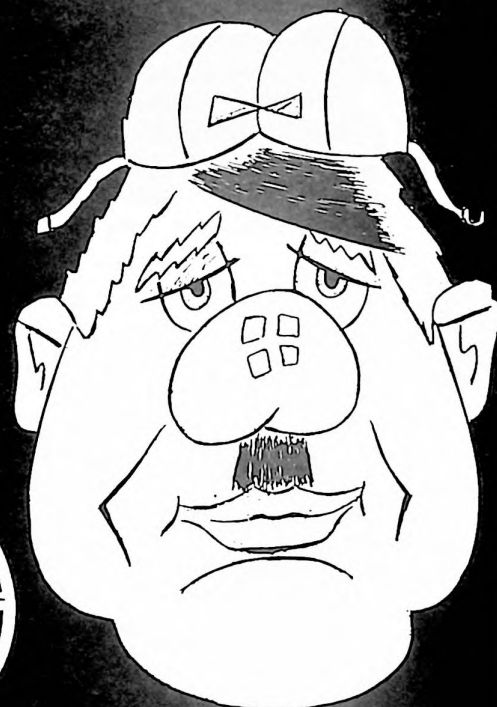

ever...have been brought down and "good-pals" rulers with the USA, installed.

The significance of the Yugoslav resistance to just going voluntarily into the NATO bandit band-box today, carries the same risk as did any of the above named countries or Governments refusing to jump into Hitler's Nazi-gangster band-box sixty years ago. What is the difference between the Nazi "Drag Nach Ousted" to conquer the Soviet Eurasian "jewel box" of resources and turn the great Slav peoples into bondage and supplicants, not to mention the "NATO-East" policy of U.S. transitional corporate powers, together with then and now of the I.G. Farben of Germany etc. The only discernible difference seems to be now it is called "humanitarian", according to the liars of the "Big -Lie" club.

The prolongation of the sorties by bombing the Chinese Embassy that sidelined diplomatic efforts to stop the bombing, or by the Strobe Talbot, (special U.S. Govern-

ment ambassador for Russian and Eastern European Affairs) interventions in Moscow with Yeltsin and elsewhere, that have accomplished the same result, have a single purpose...to bomb the Serbian people so far into the "Stone Ages" that neither recovery or resistance to the placement of the NATO up to 100,000 military strike force in Serbia WITHOUT ANY RESISTANCE, will be possible. Thus a 1500 to 2000 mile line of armed MILITARY intervention in the Soviet Republic will be established...the door to the Eurasian resources "jewelbox" will be opened. All will be guaranteed "safe-passage" by the U.S. "super-sophisticated" military of the NATO, 21st Century bandits.

In our first article on this horrendous dangerous "US-NATO Genocide War of Aggression" we said that they are all "Doomed" and also to Fail...Humanity will Triumph." That was in April in NSC.. As this written, two months later, we can see nothing that causes us to change our minds, or to retreat from that statement.

Economic "globalization" includes destruction of the capitalist "nation states". But world wide, the courageous resistance to the murderous efforts of blind Transitional Corporate Power who want to "globalize" their military domination and subjugation of the people through NATO, is failing. Across Europe, in Asia, in Australia, in Latin America and South America, Africa, even here at home...the peoples demand for true freedom, friendship and peace on our capitalist-bedeveled space-ship we call Earth, is growing, reaching out. The future belongs to us, and not to the ugly, historically cancerous capitalist society of greed, gun-power, hatred, death and the awful mutations of corruption. That

is what is dying in human affairs.

Peace, friendship, the mutual and cooperative problem-solving is the ONLY ROAD NOW OPEN TO THE HUMAN SPECIES.

**ALL POWER TO THE PEOPLE!** □

**WE TOLD YOU SO!**

In the May issue of NSC we wrote that the shuffling of Yeltsin's Prime Ministers is nothing but the same card game but different players!

We also stated that the Russian Duma, with the largest (majority) number of members from the Communist Party of Russian Federation under the leadership of G. Zyuganov shall buckle under Yeltsin's hand and do whatever he wants.

Prime Minister Primakov who was the darling and choice of the Russian Communist members in the Duma was dumped not too long ago

and Mr. Stepashin, another clone of Yeltsin is in the drivers seat. And what did the CPRF Duma members do? Did they fight? Did they call out the people out into the streets to demonstrate and push their own candidate to the post? No, of course they did not. The CPRF buckled and voted -in Stepashin!!

NSC also stated emphatically that the ruse of "impeachment of Yeltsin" is a tempest in a tea pot! And that is exactly what happened. Yeltsin belched (vodka flavor) and the Duma CPRF members and others ran to the wash-rooms!

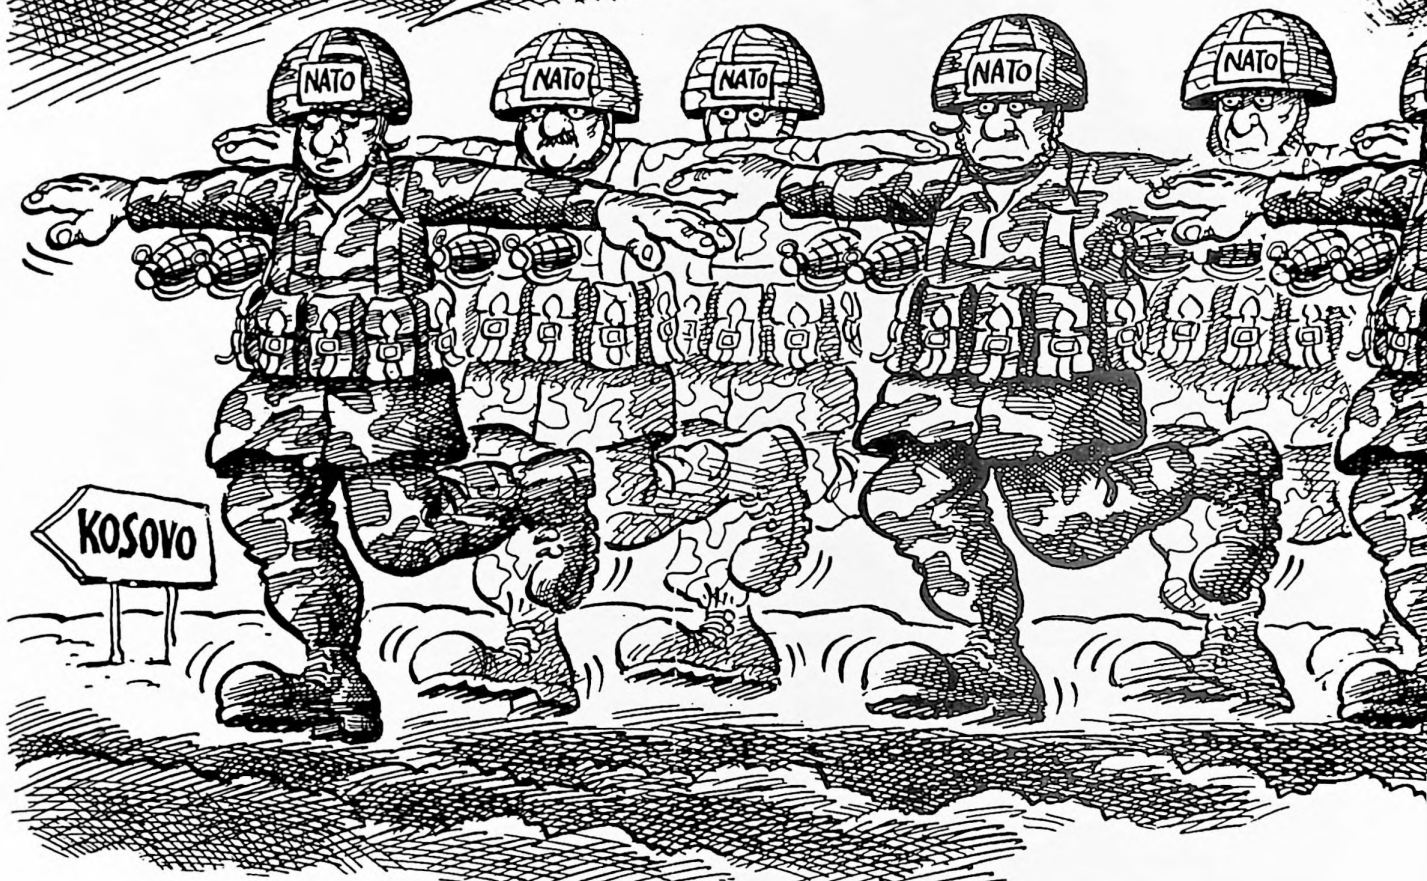

What is sad is that there's some communist parties in the world that are putting all of their eggs in this Social Democratic CPRF whose leaders still call themselves "communist". V.I.Lenin always warned about the tactics of these "opportunists" and history has always proven him correct! □

*Picture is worth a thousand words, they say. Here's Yeltsin glaring at Primakov, but their plans are the same! Capitalism forever! A face like that only a mother can love!*

**“The war against the Serbs is about projecting a self-image of the ethical new Britain bestriding the world.**

**It is a crusade.”**

**By Mick Hume**

John Prescott, the Deputy Prime Minister of Britain, can denounce “Mr.Milosevic but he cannot pronounce it as he tried to do as “Mr.Milloffosoffeffic”. Our Robin

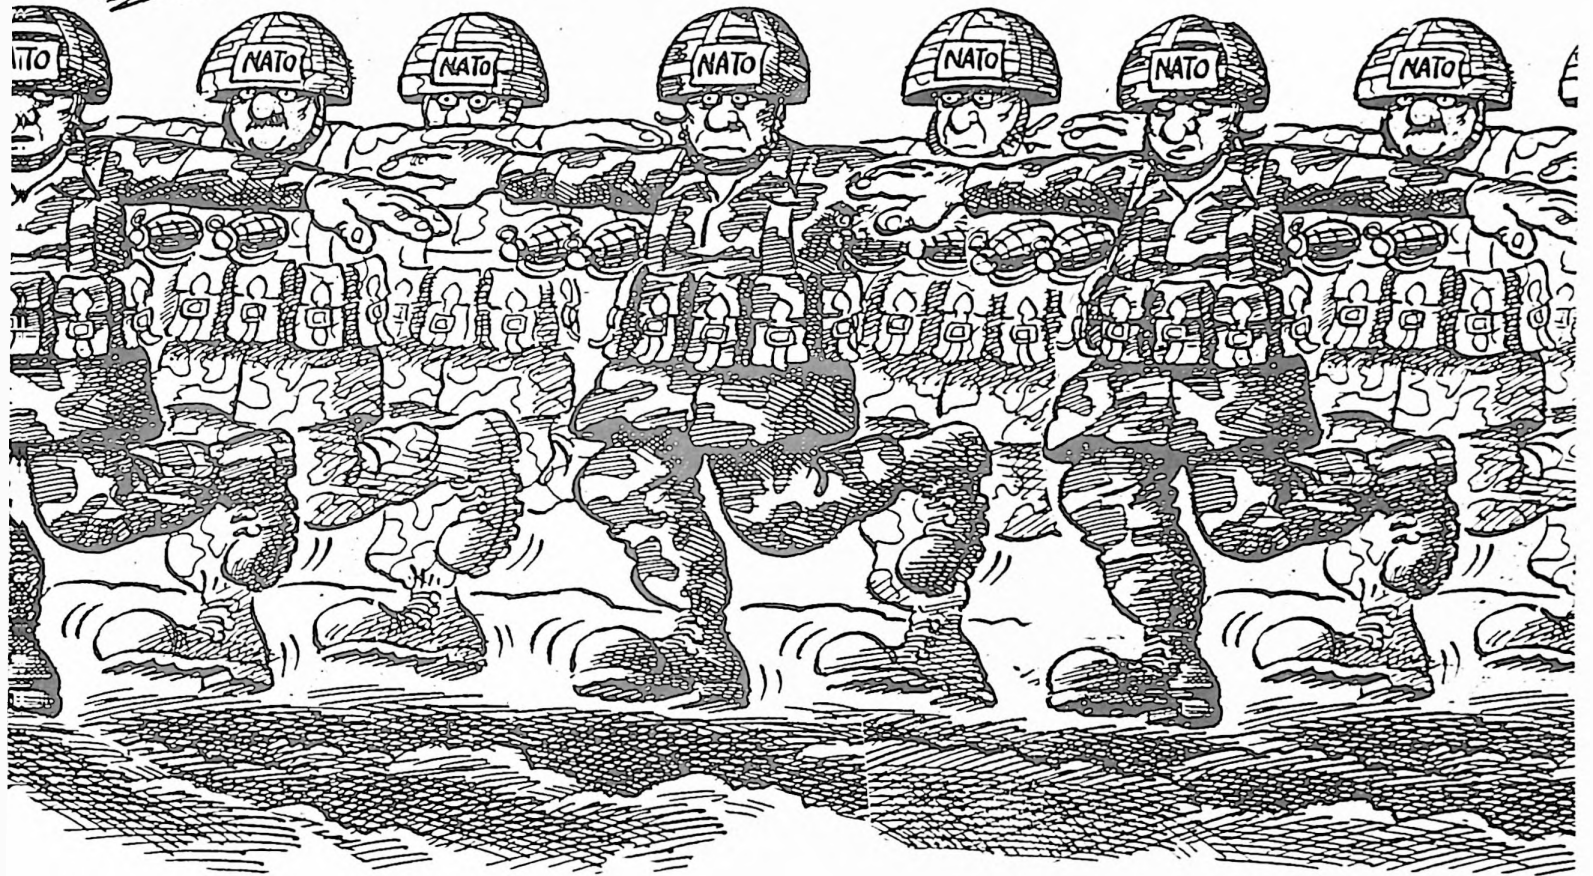

Cook, the Foreign Secretary, seems to think that Kosovo is ravaged by President Milosevic’s “Siberian forces”. Mr.Cook has also assured us that he “knows that the Serbs executed 20 Albanian teachers in front of their pupils in Goden. What he does not appear to know is that Goden is a village with just 200 inhabitants - yet, it seems, with a teacher/pupil ratio beyond even the fantasies of the NUT conference fringe.

The Balkans may no longer seem so far away, but these are still countries of which our Government knows little and cares less. So what did Tony Blair mean when he told Parliament that the war is being fought “for a moral purpose as much as a strategic interest”? What moral purpose moved Mr. Blair to become the first Labour Prime Minister to lead Britain into a major international war, involving democratic socialist air strikes on passenger trains, TV transmitters and homes?

The war’s moral purpose clearly has little to do with the welfare of the region’s peoples.

IF ANYONE ASKS ...  
WE'RE PEACEKEEPERS...

# AGGRESSION

From  
THE TIMES OF LONDON  
April 15, 1999

Kosovo's Albanians are a hapless army of televisual victims whose suffering provides a convenient pretext for war NATO contemptuously bombed their towns and cities. Then, when the air strikes precipitated a predictable humanitarian crisis, the "shocked" West rushed in news crews to capture the refugees' tears - "say rape camp for the cameras".

The true position that the Kosovo Albanians hold in Britain's official affections is best revealed by the magical transformation these people undergo when the lucky few step off the ferry at Dover. Under the terms

of new Labour's asylum laws, it's good-bye refugees from hell, hello dirty scrounging gypsies.

The "moral purpose" of Mr. Blair's war is not to be found in the Balkans, but at home. As ever, foreign policy is an extension of domestic policies. The war against the Serbs is primarily about giving Mr. Blair's Government an aura of moral authority and a sense of mission. It is about projecting a self-image of the ethical new Britain bestriding the world. It is a crusade.

Like their medieval predecessors, new Labour's crusaders

seem almost entirely ignorant of who they are off to fight and why. It is a case of "insert appropriate enemy here", be it President Saddam Hussein or Slobodan Milosevic. All that matters is to find a suitable ugly infidel against whom to prove their own righteousness. Since the Government finds it difficult to forge a moral consensus in Britain on everything from genetic engineering to roadbuilding, it eagerly seizes opportunities to lay down the law about what is Right and Wrong on the world stage.

This is what Mr. Blair meant when he announced that the war

against the Serbs is "no longer just a military conflict. It is battle between Good and Evil; between civilization and barbarity". Implicit in this statement is that, as a counterpoint to the Evil Mr. Milosevic, Mr. Blair is a force for Good in Britain and around the world. New Labour has appointed itself savior of civilization, on a noble mission to re-educate the barbarians.

The self-image of new Britain which Mr. Blair's crusade seeks to endorse is captured by touching pictures of British Army officers bottle-feeding Albanian babies and brushing the hair of young refugee girls separated from their parents. This is a nanny state with a difference, claiming the right to act in loco parentis for all those it deems deserving. Armed with a brick of moral superiority in her hand-bag. Clare Short, the International Development Minister, can bully the Macedonian border officials about not acting like civilized Europeans. And behind her, an army of radical activists, actors, journalists and others in search of a cause to make themselves feel better, have signed on for new Labour's religious war.

As a new crusade, Mr. Blair's war need not be restrained by the rules off realpolitik. All that matters is that Something Must Be Done, and let's worry about the consequences later. The out-of-control character of this adventure raises serious questions about where it might all end.

No doubt Mr. Blair and his followers sincerely believe their war is a just moral cause. After all, the righteous (or in this case the self-righteous) can do no wrong. But those who think that anything goes so long as the Kosovo Albanians are saved might remember what happened to victims picked by Western liberals in order to justify "humanitarian" interventions. They were dropped when the

moral roadshow moved on. Anybody seen an Iraqi marsh Arab lately?

## MOVIE STARS- LATEST WEAPON OF US/NATO!

According to the US and British media the array of movie stars that are flying into Macedonia in order to get their publicity shots done with the Kosovo refugees is growing each week. The Macedonian authorities are getting ticked off since stars like Roger Moore, Gwyneth Paltrow and Bianca Jagger come in on their Royce and Audi cars with chauffeurs and entourage of press photographers.

On cue they are handed children, all dressed in topflight Western clothes and the stars put on their most pathetic-make believe faces as demanded by the script writers.

We would venture to say that

most of them never even heard or knew where Kosovo was, but, publicity is publicity. These stars and their agents know the publicity gimmick used so cleverly: "Call me a son of a bitch, but please spell my name right!"

During McArthur cra in that bastion of "democracy" the USA, former President Reagan (amongst others) fingered and became the willing tool (of course for \$\$\$) the Communist writers and actors in Hollywood and thus depriving these talented writers and actors from making their living.

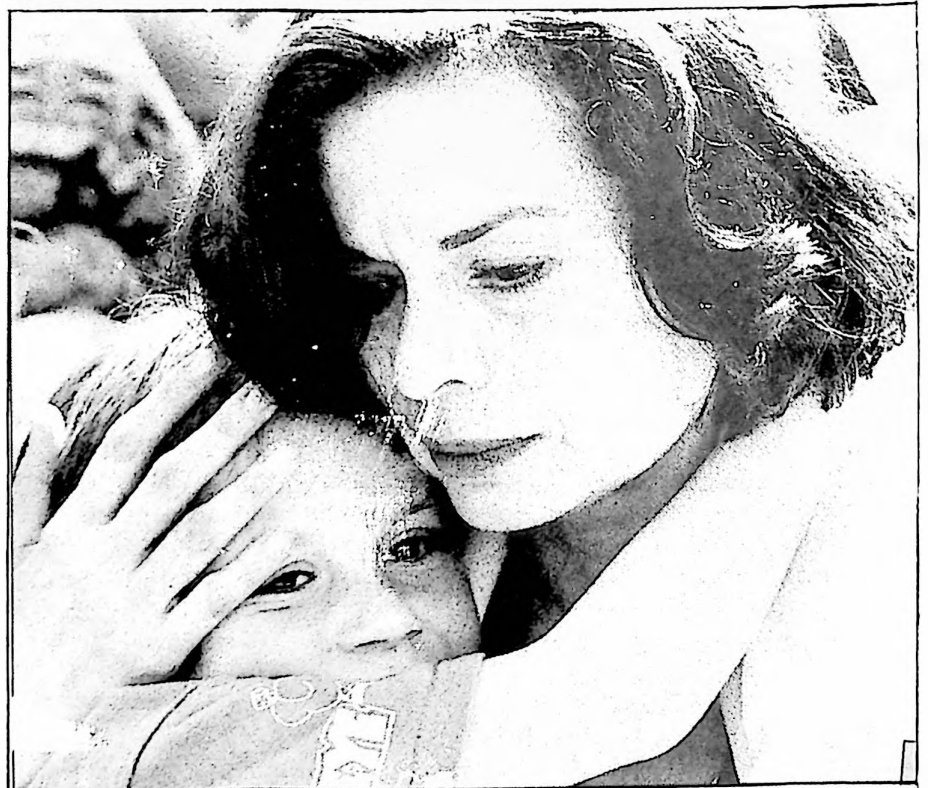

The same scenario is with the present actors who for publicity above all, are willing to play this written charade.

This reminds us of a down to earth expression written by one of our NSC readers in US.

What is the difference between these "actors" and a prostitute?

Prostitute: "You pay, I play!"  
Actors: "You pay, I lie!"

*BIANCA JAGGER - an Oscar winning performance with a smiling Kosovo child.*

The article in the London newspapers said that these actors handed out bread, candy and toys to the "refugees"

Doesn't your heart bleed at this touching scene? We just wonder whether their purse strings opened up to give these presents from their own amassed fortunes, whether these "gifts:" came from poor people with whom these actors would not be seen with?

### **READ THIS ABOUT SOME KOSOVO ALBANIAN REFUGEES**

According to a Rome dispatch by John Follain which stated the following, prevelant and Edin Hamnzic as reported by the newspaper Toronto Star, Canada which wrote the following:

"Kosovo Albanians are preying on Kosovo women in the refugee camps and smuggling them to Italy by boat, there they were under the control of Albanians. These "refugees" then brought them to Trigiano (an Italian NATO war base), confined these women to a 16- square meter airless room in a house with other young Kosovo Albanian women. There they were forced to be prostitutes. These Kosovo Albanians told us that we must do this or they will beat and kill us. They were not allowed to keep their earnings"

Relief agencies have reported their concerns to the Italian interior ministry, but a spokesperson said there is little the authorities can do."

**THERE IS NO NEED TO COMMENT!**

#### **ERRATUM!**

In NSC May issue there were a few glitches, for which we apologize. Steps have been taken to rectify this.

## **CANADA OUT OF NATO!**

Canadian Friends of Soviet People (formerly Canada-USSR Association) demand that Canada gets out of NATO and pursues a policy of peace in the world! Even former President Carter of USA, no friend of socialism or communism, demands the cessation of hostilities in Yugoslavia!

Canada shall be accused and tried as aggressors by the people of the world!

Statement by the  
Canadian Friends of Soviet People  
Editorial Board of Northstar Compass

## **UNCLE JEAN WANTS YOU!**

Without a declaration of war; without a discussion by the Canadian Parliament; going against the Constitution of Canada; going against the Charter of United Nations Organization - Prime Minister Chretien of Canada sent Canadian soldiers and war planes to bomb Yugoslavia, since Canada proclaimed that we're "peacekeepers"!

**Our Prime Minister should not forget that at Nuremberg the people of the world tried other leaders for crimes against humanity!**

# YELTSIN'S BOTTLES AND HIS PRIME MINISTERS!

*Let's delay some more time so the BOMBS can continue!*

## CARDS CHANGE, BUT GAME IS THE SAME!

The latest in the shuffle of Prime Ministers in Russia is that Sergei Stepashin is the new "golden hair boy" that Yeltsin thinks will pull his chestnuts out of the fire. The International Monetary Fund and the World Bank, plus US Imperialism are determined to

bring Russia to its knees and then dismember it into small insignificant fiefdoms that can be stomped upon at will by US-NATO bullies.

Primakov, although no friend of socialism or no patriot that wanted to resurrect the Soviet Union, nevertheless he was not altogether following 100% the diktat of Western Imperialism and so the order was given and Yeltsin complied, otherwise his bankroll

would be caught off!

What better timing for all communist forces to mobilize the people unto the streets, since the Impeachment of Yeltsin is not going to work, no matter how much CPRF faction and Zyuganov strut before the media!

**The political game is the same, just the players are shuffled back and forth. The RULES of the game have to be changed, not the players!**

I came to realize that we must do something. I could not stand the present situation...and these crooked "democrats". I

feel so devastated and sorry for the older people who fought and saved our country and the world from fascism. Therefore I decided that we must change present regime. Older comrades will help us to organize and grow and together we shall convince the younger generation that there is no future in this capitalist regime. This gathering of youth from all corners of the Soviet Union opened many eyes that were still clouded with Western propaganda.

Together with Victor Anpilov, grandson of Stalin Dyugashvili, Terekhov of Union of Soviet Officers the Festival was a resounding success. The delegates adopted a revolutionary program and Constitution - the Vanguard of Communist Youth shall be very active in the forthcoming elections and the future rests with them.

Photographs in Molniya we reproduce here to show some of the participants at this very important step in the new **STALIN BLOCK FOR USSR!**

My brother brought me here to the Vanguard Red Youth. I read the constitution and realized

*On the Presidium there were Dzyugashvili, Anpilov and Terekhov plus youth leaders of the Vanguard Red Youth*

that this organization is for me. My friends in Tver are all for socialism, for the workers state. We should have had such an organization before, but I'm

glad that we are now organizing against the present hated regime. We are the future and we must resurrect the Soviet Union and Socialism!

# LET'S BE VIGILANT. THEY ARE COMING!

BY I. KUZMINSKY  
Journalist

Looking at the "democratic press" in the last few months and coming in contact with pro-nationalist sympathizers, you cannot but come to the conclusion, that the whole idea of nationalism and its primitivism is being utilized by the present regime for its own plans. This is not only utilized by the politicians for their own ends. The present state is of course interested to utilize this

nationalism and endorses laws which make these manifestations either legal, or, overlooks their anti-state activities on purpose, to further its own ambitious plans

In Ukraine and especially in our region of Volyn, there are many political parties and groupings, army-styled formations who propagate intolerance and hate towards other races and beliefs. These groupings ignore the present laws of the country, knowing full well that they will not be stopped or barred from carrying out their activities. Actually these pro-fascist nationalistic elements are going against even the present bourgeois constitution, the Article 37. You would think that the state organs of law and order

Young Nazis with guns already on their hips and saying... WE'RE COMING!

would oversee the anti-constitutional activities of the groups that are mushrooming and well financed. These organizations are registered under pseudo names like "Patriots of Ukraine /-called "Heritage". The program and constitution of this group should worry the Ukrainian people. It is needed to remind all of us that it IS exactly how the Nazi movements started in Germany, Italy and their satellites when they indoctrinated their young people and thus the Fascists came to power and the consequences of the Second World War and 50,000,000 deaths were the result. These young fascists worship their long-past "heroes". People of Ukraine do remember these "heroes"! Oh, do they ever!

So, it is necessary to point out here as to some of the groupings that are existing in the region of Volyn, Ukraine. The Social-Nationalist Party of Ukraine which is headed in Lutsk by a certain Vitaly Kinsky and Valery Cherniakov.

What does this party do? The aim is to take over the present regime of Ukraine and in its place a Nationalistic New Ukraine and a New Society. Its ideology is social-nationalism. This party looks at Russia and Russians as enemies and blamed for all the present ills of Ukraine. Struggle and fight any pro-Moscow or pro-Russian sympathies amongst the people and against the Russian language in particular.

One of its leaders stated at the opening congress of this party in 1996, the following: "Ideology of our National Socialism must become the ideology of Ukraine, to upbringing the young generation in this new ideology and new culture. We are going to accomplish this! Ukrainians, you are a super race, you are a race of victors!"

Here we see what the new

Lutsk "Patriot"!

race and the new culture shall be. And what culture will be is already evident. The right hand to this fuerher V. Kronsky is Ruslan Timoshuk, who was already jailed even by the present regime for hooliganism, desertion from the Ukrainian Army and other crimes. This is the "patriot" who will be teaching and upbringing our youth? The leaders of this party must be out of their mind to bank on such a "leader"! A night bar in Lutsk, called "Galician Bear Hall" is the headquarters of this party and the young storm troopers.

Another example is the young organization called "Patriots of Ukraine" which is armed and is trained by the Army-Navy Fleet of Ukraine. One of the leaders of this Nazi movement is now Alexander Plasky, born in 1982, student at School #2 and was the epitome of a school rowdy and his failed in most every subject, missed school, had to appear regularly for disciplinary actions etc. etc. Now, this young person, promoted, supplied with money and means of a living is the one that heads this young Nazi movement. They train in sum-

mer camps and seem to be well heeled and financed.

Why is that our "learned and cultured present leaders" of Ukraine are so worried about Russia, Russians and try desperately to infect the young generation with this hate? This is becoming self evident, that Ukraine in the last eight years, instead economically of blossoming, growing, producing is in fact stagnating and going into an ever deeper economic crisis. It is fractionalized to such an extent that even amongst Ukrainians themselves there is growing regionalism and hatred between regions.

The first point on the agenda of these Nazis is hatred of the Russians and those Ukrainians who speak Russian. These present young Nazis are imbued with ultra-nationalism of their "heroes" Petlura and Bandera whose policy is absolute national-fascism. They follow the 10 commandments of Ukrainian Nationalism...as one point shows the Nazi ideology prevalent in the other 9 points: "People! Understand! Moscow, Poland, Hungarians and Jews - these are your enemies. Kill them!"

History has saved these posters, leaflets, books of the OUN/UPA bands who served Hitler. Hitler utilized these Ukrainian nationalists and today, the present regime is utilizing these elements for its traitorous policy. The world remembers the formations that Hitler organized, such as Roland, Galichina, Naughtigal, 14th Division and others...who copied Hitler's insignias, ideology, salutations and methods of murder. It is a well known fact that some of these Ukrainian fascists during Second World War were even more brutal than the German fascists in murdering even their own people.

While all this is happening, in the state apparatus, militia

and security organs, its business as usual and the motto is "just look the other way!" The present regime is too busy trying to stay in power, but at the same time has contingency plans with these "patriots" in case they need to utilize them to save their own skins.

Dear readers of Northstar Compass!

What is the future of these young people? Question upon question.

While at this time...

## COMMUNISTS WIN IN OSSETIA - GEORGIA!

According to Reuters Agency, the Communists of South Ossetia in Georgia who declared themselves a separate republic, have gained the majority of seats in the 33-member Parliament with over 60% of the votes.

Georgian Government of Shevernadze declared results of the election "illegal" and also warned that it might bring "undesirable consequences". South Ossetia has enjoyed de facto independence since 1992 after a year of fighting between Ossetian and Georgian irregulars which claimed over 1,000 lives.

The fighting began when the nationalist former president of Georgia Gamsakhurdia revoked the autonomous status of South Ossetia which it enjoyed during Soviet times. The Ossetian leadership then responded by declaring itself independent.

## STALIN'S LEGACY- IS OUR STRENGTH"

**By Yevgeny Dzhugashvili**

(Grandson of J.V.Stalin)

**Member of Stalin Block,  
Workers Russia-Officers  
For USSR**

When I was preparing myself for the Congress of Stalin Block-CPSU, I telephoned the chairman of the United Communist Party of Georgia, Pantelcimov Geogradze. He told me, that that Georgian "prince" Shevernadze is preparing to enact a law to ban the United Communist Party of Georgia. This same Shevernadze who for scores of years swore to upkeep socialism and the CPSU, telling the CC-CPSU that the "Sun always shines from the East over Georgia". Now, it's obvious after deserting socialism he tells the people of Georgia that the sun always "shines over Georgia from the West". Are we not correct to call this person as Stalin would have called him "enemy of the people"?! □

We must forthright and always state this: anti-Stalinism

is anti-Communism, selling out the working class and all the people of the USSR. The CC of UCPG has decided to liquidate all the anti-Stalin decisions that were taken by the XX CPSU Congress and all other later Congresses.

Now the UCPG is organizing a congress to fight against the policies of Shevernadze, whose aim is to break away all the peoples living in the Caucasus from Russia, plus other present bourgeois nationalist leaders who also tried to break up the unity of Soviet people. It is important to note that in Georgia it is the Communists and the "Stalin Soviet" who are the initiators to united around themselves the 17 parties and movements of left orientation.

It is the Communists that must lead the way and point the correct path to follow in order to resurrect the Soviet Union and struggle against the might of those who, on behalf of the West are trying to disunite our Soviet people. These enemies are working hard, hand in glove with Western Imperialist countries. Just lately there was opened the Baku-Supsa oil and gas conglomerate, and avoiding the territory of Russia proper with their pipeline, in this way to break away economically the whole of the Caucasus territory from Russia.

In front of us is an overt and covert deadly enemy of international Imperialism and utilizing the internal bourgeois enemies. Our fight is going to be a long and bloody one. But I am an optimist that the final victory shall be ours, we, the Soviet Communists, Leninists and Stalinists. Because that unity, brotherhood, life is only possible within the framework of the Soviet Union. □

## **PRIMAKOV WAS PART OF THE PLANS**

Much has been written about the courage of former Prime Minister Primakov of Russia, when he turned his airplane around in mid Atlantic as a "protest" against the start of aggression by US/NATO against Yugoslavia.

According to this newspaper, official organ of the Russian Communist Workers Party, Yeltsin's regime had telephone conversation with Clinton as Primakov was flying to USA. Primakov had a phone conversation with Gore of USA and he was told that USA shall not consult the United Nations Organization.

Primakov, after his firing as Prime Minister revealed that Clinton and NATO knew from Yeltsin and Primakov that Russia will not send any help to Yugoslavia. They knew and they agreed that to save face in front of the Russian people and others, the plan was consummated to have Primakov return back his delegation as a sign of "protest". Clinton then assured Yeltsin/Primakov, IMF and trade relations between the two countries shall be normal, if Russia does not help Yugoslavia.

So the "public posturing" by Yeltsin and Primakov, even though Primakov knew that his days as Prime Minister were numbered. Besides all this public relations, a plan was already in the works for the upcoming elections to the Duma and strengthening the hand of Yeltsin and IMF, thus Primakov was gone and Stepashin was in. This same Stepashin - was trained in USA's prestigious Universities!

We wonder what the position in this scenario was of Zyuganov and the majority fraction of communists of CPRF in the Duma?

We feel it's necessary to give here the official statement of the Central Committee of the RCWP on the question of the aggression against Yugoslavia.

"World imperialism again put humanity on the brink of world war. In this situation, the capitalist regime of Russia shows its weakness, foresight of leader Yeltsin and the present regime. We appeal to all Soviet people to raise the Red Flag of Victory over the war clouds in Europe- the US imperialism and its partner, German fascism and we should all declare "NO PASARAN!". We must support the heroic Yugoslav people, stop the aggressors, dashing to attain hegemony over the world. There is no other important question at the moment for Russia and the world than this!"

*We wonder what official statement was made by the CPRF? Or are they still brooding over the wasted year of their "Impeachment" of Yeltsin which was just a cover-up for going along with the present regime's policies. After all, cushy jobs in the Duma, perks, money...all these overrode their "communist" dedication!* □

## **NATO, NEOFASCISTS- YOU SHALL RECEIVE ANOTHER BERLIN!**

**O**n the territory of America, that self conceited and ever expansionist country, since the civil war between the South and North from 1861-1865 there was no other war or destruction. The participation of

the USA in the First and Second World Wars did not do any damage to the economy, destruction of buildings and colossal suffering and deaths of the population- the wars were fought far away from USA and it buoyed the economy and profits of the capitalist class. The billionaires were becoming richer, such as the Mellons, Morgans and Rockefellers etc.

USA has since that time marched with its boots over 30 countries of the world- Grenada, Panama, Cuba, Nicaragua, Grenada, Vietnam, Korea and Iraq... and today Yugoslavia. Now no country is safe and no country knows whether it shall be next on the list of Yankee boots.

*Here Galina Savchenko goes into excellent details about the exact locations of the bombing by US-NATO planes. We eliminated these facts since in the May issue of NSC this was described in graphic details.*

The patriotism and courage of the Serb people and its leadership is phenomenal. Unfortunately our Serb brothers and sisters are not receiving the kind of help that is needed by the present regimes of Russia or Ukraine.

NATO is bombing Iraq and the Minister of Defense of Ukraine Alexander Kuschich in a TV interview said: "the peaceful role of NATO in Yugoslavia"

NATO is bombing Yugoslavia and the hangers-on of President Kuchma "we're neutral here", giving humanitarian help to Albania.

The Yeltsin crows (Chubais, Gaidar, Nemtsov and Primakov etc.) scared by the outpour of sympathy of Soviet people for Yugoslavia are desperately trying to placate the Russian people by declaring: the mistakes of America and bellicose "threats" of using force against NATO"! At the same time Madam Albright told

Yeltsin's crowd to "back off, you have no right to stand between us and Milosevic."

But those are our present rulers, and we the people must appeal to :

\*We appeal to the people of Germany from whose territory the bombers and fighter planes attacking all Yugoslavia. "Have you forgotten 1945 and what happened to Hitler and those who supported him?"

\*We appeal to the American people "Get rid of the present neo-fascists, that govern you from the White House!"

\*We appeal to the Albanian people: "This war is not needed either to Albanians or to the Serbs. This war is needed by the American Imperialism and its ruling class!"

We demand that the initiators of this war should be tried by International War Crimes Tribunal

We the citizens of the USSR welcome and support that Yugoslavia should be admitted into the Union of Russia and Byelorussia!

## **CPRF UNMASKED**

From the first steps of its existence the Communist Party of Russian Federation was looked upon in two ways, but quickly the people realized and saw its un-communist ways.

At the May meeting of last year G. Zyuganov stated: "Time has come to have a dialogue with the people-we must go into the factories and enterprises to talk with the workers..." Then the question has to be asked as to what was the CPRF doing before and is it doing anything different now?

As an example in Kaluga, the representative of the CPRF V.A. Boyko, its First Secretary spoke to the people assembled thus..."Dear people living on the Kalushny lands!..." The people, the Bolsheviks yelled out: "Dear comrades!"

At the end of 1998 Zyuganov wrote: "I traveled to the West and studied and learned from the social-democrats, and came to the conclusion that the Labor Party in England meets all the needs of the English people!"

Well it certainly seems odd that Zyuganov's admiration for the Labor Party of England in spite of England and USA bombing Iraq in December of 1998, that in spite of these barbarous attacks by the two imperialist countries, Zyuganov still admires them and is proceeding with the social-democratic plans, in spite of calling himself "communist!"

Then there are occurrences that practically all of the leaders of CPRF, including Zyuganov during New Years events had a sign on a building on behalf of CPRF saying: Happy New Year and the with

the Birth of Christ!"

On January 12, 1999 Zyuganov came to the defense of Primakov with these words: "we must show Western investors that they can do business with Primakov..."

Is this not a call to further allow the present Mafia to rob our people of wages and rape our natural resources?

On January 25, 1999 during the presentation of his new book in France, called "Principles of Geopolitics" Zyuganov at a press conference said: "We must have a strong democratic Russia, based on geopolitical Eurasian reality!". Zyuganov now does not even mention the word "socialism" in his speeches or in his writings.

### **COMMENT**

*We cannot but agree with this writer and must make a comment as it seems that every leader that turns to be a social democrat finds ready sponsors for his books in many languages, with royalties paid etc. etc. And, furthermore, during the dangerous times of the struggle now, leaders like Zyuganov find time to write voluminous books, but no time to call the people out into the streets to overthrow the present hated regime!*

*The lesson is clear. There's no need for further comment!*

## FIRST OF MAY CALLED US FOR UNITY

The First of May in Lutsk, Ukraine went under the banners of unity of all progressive forces in order to resurrect our Socialist Motherland. The First of May meeting which was held in the city's main park, was attended by all representatives of the left forces-communists, including socialists peasants party, non party and Bolsheviks. It is characteristic that official representatives from the present regime were not present. This is the prime example that the present Mafiosi structures are not interested in the fate or future of the workers.

Interestingly enough even the nationalists, pro- Bandera and Melnyk Ukrainian bourgeois nationalists did not bother to disrupt the meeting as they did in years past. Even Mrs. Stetsko, the most reactionary of the nationalist movement did not bother to come, seeing the mood of the people who are beginning to see where this nationalism is leading them.

Speakers included a deputy to the Supreme Soviet of Ukraine S. Phidenko, secretary of the Socialist Party of Ukraine K. Tishenko, head of local Village Party R. Chapyuk and other representatives of progressive movements. All of the speakers called upon the people for solidarity, unity against the present Kuchma

regime and for the reorganization of the economy on a socialist basis. Let us point out some of the main points presented at this First of May manifestation.

First: The meeting showed that the people of Lutsk are throwing away the policies of Kuchma and his clique, who want to make May Day just another spring holiday without meaning or understanding. The regime want to take away the class meaning of May Day. May Day was and will be a day on international solidarity of the workers. No matter in what colours you try to paint this day, no matter what attempts you make to change the complete orientation of this International Workers Solidarity Day, our calendar shall be marked in Red and it shall carry the Hammer and Sickle!

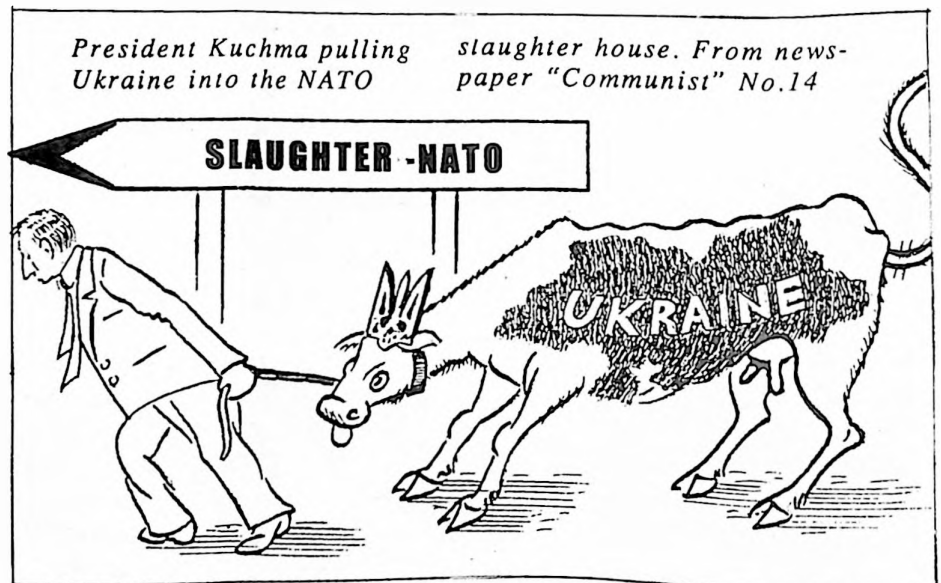

Second: The workers gathered on this day showed their internationalist solidarity against US/NATO plans of dominating the whole world. The prolonging genocide in the Ukraine and the genocide being daily practiced against Yugoslavia are signs that the working class of the world must unite.

We must understand that it is only through unity of the people can we assure freedom for people of Ukraine and the world. Only by this unshakable unity can we defeat the present

Mafia and not allow a Third World War to again devastate humanity. In the so-called "across the ocean heaven" there appeared a Yellow Devil who is just waiting to come upon our Slavic homeland, our Rus, to devastate our Slavic peoples and get them under its wing of NATO. Oh, people! Be on Guard! The Third World War has begun. Let us stop it at the beginning! Let it not be too late...

Third: The workers of Lutsk are against the policies of President Kuchma and his policy of borrowing from the West. But somehow these foreign gifts of money does not seem to find their way into the workers pockets. We all see what this "American Help" is producing and what it means. We see that these American "dollars" are not in our pockets, that means that they are in pockets of the present leaders. Are they in financing of schools, hospitals or investing in industries to help employ the unemployed?

Of course not! These dollars somehow get back into foreign banks as investments for a "rainy day" of the present leaders. But, do we really need these loans? Do we want our children and grandchildren to be paying off the interest owned to the WB and IMF? No we do not want this robbery!

Why are our present leaders begging money from the West, while our industry is standing idle and being dismantled? Are we that stupid? Can we not build our industry as it was before? History has shown us that when Joseph Stalin was at the helm of the Soviet Union our construction, industrialization was booming. Is it not time that we changed our leaders?

History has shown us that only Socialism and Communism is capable to produce social-economic growth. That is why the upcoming elections for a President that shall take place in October, we must take advantage to get as many Communists/Bolsheviks into the government as possible so that the birth of the Ukrainian Soviet Socialist Republic shall again get on the world stage!

Fourth: The present situation in the world is coming to show the people the whole sordid policies of US/NATO and the Pentagon. In these policies and the "new world order" are not much different from the Hitler's fascism.

All of us remember the barbaric bombardment of Iraq. As the British journalists reported that the US used bombs and missiles made from depleted uranium. The results of this has become evident now with the newly born children with two heads, with no head, with two fingers on a hand instead of five fingers, with no hands and other terrible deformities.

It would be interesting to know whether "democratic West" knows about this?

Today the aggressors against Yugoslavia is led by the United States. It is also known now that USA is using depleted uranium bombs and rockets in Yugoslavia and people are dying and future generations might be born with unaccountable deformities and sicknesses.

The destruction is unthinkable!

*Here Professor Herasymchuk gives details of what was bombed and destroyed, We omitted this, since this is fully covered in another section of NSC-Editors.*

If all of these barbarous acts are known in the West, how come that the protests are not as adamant and encompassing as the situation demands?

It is ironic, that during these barbarous bombings of Yugoslavia, President Kuchma of Ukraine was at the anniversary session of NATO and with a glass in hand, toasted NATO and wished them success in future undertakings. Its an everlasting shame and damnation to those in NATO uniforms who are hatemongers! Hands off Yugoslavia!

We must understand that these are the sounds of the Third World War. Mostly all countries of Western Europe are participating in this aggression, headed by USA. Can anyone guarantee that NATO's bombs and rockets shall not fall of their homes next? No one in their right mind now can guarantee this!

Therefore, let us unite into one common front, one united effort! To keep mum and quite at this moment is a crime. United States and Clinton, Albright are bringing to Europe the final armege-don. Yugoslavia at this moment has to take on US/NATO on one to one conflict, not of their choosing. We cannot allow this barbarity to continue! In order to bring peace, we must help Yugoslavia - all moral and economic help, including arms, rockets - and missiles and volunteers.

If we allow this US vampire to succeed in Yugoslavia then US Imperialism is eyeing all of the Slavic people in order to exploit and enslave them. Is there a guarantee that NATO shall not come with his curved knife upon anyone of us? After the terrible devastation and

Iraq...Yugoslavia...Now, who is the next victim?!...

Peace for Ukraine, peace for Russia, peace for Yugoslavia, peace for the whole world can only be achieved by a united front of all the working people. Hands off Yugoslavia! Long live the solidarity of all the workers of the world!

## THE BOURGEOISIE BY BERNARD LIVINGSTON

What is the bourgeoisie?  
It's the people you never see.  
In Chase Banks, think you'd see a Rockefeller?  
Fat chance! Best you'd see's a teller.  
Rockefellers are too busy at grand larceny.  
They're the Bourgeoisie you never see.

Fred Astaire Dance Studios,  
Think you'd find Fred there tapping his toes?  
Never! In hundreds of studios bearing his name  
Fred never set foot: In U.S. selling your name's the game.  
He got rich, you got dance lessons from Joe or Lee;  
Fred was a Bourgeoisie you never see.

As with the banks and dance studios,  
So with oil, steel and Time-Warner shows:  
Workers work, unseen others collect the loot.  
Even a banana from United Fruit  
Enriches a person you'll never view.  
You don't see them, but they sure see you. □

## NATURAL SCIENTIST AWARDED SOLIDARITY ORDER

Dr. A.J. Thut, the Honorary Chairman of the Canadian Friends of Soviet People (formerly the Canada-USSR Association) on March 4 was awarded the Solidarity Order by President Fidel Castro of Cuba at a ceremony in Havana.

Dr. Thut was born in Switzerland on June 4, 1903 in Zurich into a poor family. He became an orphan at the age of five, and taken in by a peasant family of Ober Entfelden. After finishing High School he worked as an apprentice in a small shop that made agricultural tools.

In 1923 he emigrated to Canada where he worked as an agricultural laborer. He went to school and graduated from the Universities of California and

Tennessee. He also became a member of the Green Medicine of England.

Dr. Thut, living in Guelph, Ont. Canada has been practicing Herbal Medicine for over 50 years and has treated patients from all over the world. It is a fact that there were Doctors in the Thut family for three centuries.

He was given the Solidarity Order, because of his outstanding research in natural medicine, his contribution to the practice of this kind of medicine and his help in the scientific and technological development of medicine in Cuba.

Present at the ceremony were Rene Rodriguez Cruz, president of the Cuban Institute of Friendship with the Peoples, and Dr. Jose M. Mlyar, Secretary of the Council of State of Cuba.

In an extensive story in the Guelph Mercury newspaper in Guelph where Dr. Thut lives for over 50 years, the writer

stated:

"Dr. Thut is in his 96th year - and looks, feels in a very good shape. Slowing down just a bit, Dr. A.J. Thut is still mixing his herbal mixtures and compounds for upset stomach and rheumatism. Dr. Thut has a very loyal clientele and he has treated the Mennonite community for half a century.

At 96 years of age, he looks excellent and his reply to my question as to the secret, he said: "I take my own medicine and wherever I go, I always look down on the ground for plants, grasses and herbs that are the natural cures for the ills of humanity!"

*Dear readers:*

*Dr. A.J. Thut is not only a patriot of Canada, but also a dedicated friend of Socialism and of the Soviet People. Together with delegations from the Canada-USSR Association, Dr. Thut visited the USSR many times and he was always present at the receptions we had for Soviet delegations, performing groups and hundreds of guests at conferences, lectures and meetings.*

*Dr. Thut does not only support the idea of friendship with Soviet people, but he helps out financially in order that this friendship shall not cease, even during the present temporary set back for the Soviet people.*

*He was one of the main supporters also of the previous publication edited by Dyson Carter, which was called "Northern Neighbors" which was the forerunner of our present Northstar Compass.*

*Dr. A.J. Thut celebrated his 96th Birthday in early June of this year. We're certain when we say that all the friends of Soviet people and readers of NSC wish Dr. Thut health and to keep that spark burning as he has all his life!*

**HAPPY BIRTHDAY

## OPEN LETTER TO JESSE JACKSON

Dear Rev. Jackson:

President Clinton is a liar. He lies about everything. Most crucially he lies about NATO expansion. Past President Bush lied to Gorbachev about expanding NATO beyond the

*Rev. Jackson with captured U.S. soldiers: a surprise development?*

boundaries of Germany. Gorbachev refers to this lie as a "betrayal". Clinton intensified the lie with the inclusion of Poland, Czech Republic and Hungary. How can you be trusted yourself when you told Milosevic that Clinton swears on a stack of Bibles that he does not want an independent Kosovo or a Greater Albania and Milosevic should trust President Clinton? What about the *de facto*, on the ground, where it counts absorption of Albania into NATO as well as Macedonia, Bulgaria and it looks like Romania, Croatia, Bosnia and who knows who else? Does not NATO have its eyes on Latvia, Estonia and Lithuania too? If "our" side shows the faces of Albanian victims of this war, Russia shows both sides and they hate us more and more each day as we lose the media war there. We also lose in China. The bombings of Yugoslavia are a political disaster, so why does NATO, lie, bomb and explode its territory, introducing all this instability throughout East Europe today and perhaps the world tomorrow. We scientific socialists know. Lenin wrote about this himself that "...in the spring of 1916 in Zurich", that, "...the period of Imperialism is the eve of social revolution." This is science at its predictive core, at its best, a prediction which seemed ab-

surd both because of the time, before there was one square inch of socialist soil on the planet's surface, and the place, backward Russia. Just everyone knew that a revolution would take place in Western Europe, not backward feudal Russia. Lenin knew that Socialism would soon come because of the inherently deadly nature of exploitation. He wrote, "... Imperialist wars are absolutely inevitable under such an economic system, as long as private property in the means of production exists.", in this his classic treatment of Imperialism.

As you sit in your fancy new Wall Street offices, does it not occur to you that Capitalism drives all before it seeking profits? Profits distribute the wealth in the wrong direction, up to the wealthy. This is why Harlem in New York, which perhaps you can see out of your window drives Fascist actions by the police and across the nation as well. Why all the youth killings today? Because that part of the media called the news. Day and night youth see the bombs falling on helpless victims, a shooting gallery. The cultural heart of the country supports the myth of the Winning of the West - meaning the extermination of the Indians. The nation (USA) was founded in genocide. The New English brought the same

culture from Old England with its intended genocide of all the Celtic peoples there, which it half succeeded in doing.

This is the Age of Science, not the Age of Religion. So why do I bother to write you after all these years of not writing? Because science is not intrinsically good, progressive, as I thought in my youth, as all of us did. Einstein realized it first and still best, when we said: "We have unleashed the forces of the Universe." H bombs are literally little suns, astronomic events. No religion figured out how to kill off everyone, absolutely the entire human race. Science did and the majority of scientists still refuse to admit it or even stop making "better" weapons of mass destruction. Does this throw us back to religion? No, but it clearly takes the arrogance out of us, those of us who are honest!

Lenin explained why Imperialism must keep going on and on. If a leader fails or falters in horror at his own hand, another will be found immediately. Capitalism drives capitalists who have an illusion that they own the machines. The machines own them. So what would V.I.Lenin do today? This is a more difficult question, because all applied sciences, all of them, have a very artistic input. Dr.Norman Bethune, the great Communist surgeon from Canada, has a strong artistic bent. Pablo Picasso, the great Communist artist, was primarily artistic in his expression. Would Lenin retreat? He often retreated. Would he compromise? He often did though his enemies claimed that he never did, that he was some demonic crazed fanatic. Spain was lost in the 1930's. Czechoslovakia was sacrificed too by the English.

These two outrages alerted the population. Would Lenin be capable in this situation of playing the fool? Or to put it in the vernacular of the mean streets of Chicago, which you and I briefly shared in 1966, could Lenin "slick a sucker",

or how about, "Come into the jungle white boy..."both politically and geopolitically more and more extended.

## FEATURE ANALYSIS

### **NUREMBERG PROSECUTOR CONDEMNS U.S. AGGRESSION ON YUGOSLAVIA**

*From Chicago Tribune, May 10*

As the bombs, smart and dumb, fall ceaselessly on Serbia, Montenegrins and Albanians, on bridges, waterworks, electric generation plants and factories, and on trains, trucks and homes, the remorseless crusade for the perceived "humanitarianism" presses forward to the applause of journalistic and academic shills. To paraphrase the Roman historian Tacitus, we are busy creating a desert, which we can call peace.

The bombing war also violates and shreds the basic provisions of the United Nations Charter and other conventions and treaties; the attack on Yugoslavia constitutes the most brazen international aggression since the Nazis attacked Poland to prevent "Polish atrocities" against Germans. The United States has discarded pretensions to international legality and decency, and embarked on a course of raw imperialism run amok.

Our alleged concern with human rights borders on the ludicrous. We dropped twice as many bombs on Vietnam as all the countries involved in World War II dropped on each other. We killed hundreds of thousands of civilians in the course of the war. Very recently, in Central America, we sponsored, trained and en-

dorsed the local armies - Guatemalan, Salvadoran, and Nicaraguan Contras - in the killing of at least 200,000 people.

We encouraged the Pinochet coup in Chile with the resulting killing of another few thousand or so people, including the democratically elected president. We saw nothing wrong with the Croat slaughter and expulsion off 200,000 Serbs from the Krajina area. We have taken a very,very little stand on the monumental slaughter of hundreds of thousands, if not millions of people in Africa. We have restrained the Iraqis from attacking the Kurds but see nothing amiss in the Turks attacking Kurds. We cannot even agree to abandon the use of land mines.

In reality when we, the self-anointed rulers of the planet, issue an ultimatum to another country, it is "surrender die". To maintain our "credibility", we must crush any semblance of resistance to our dictates to that country.

## RAMSAY CLARK LETTER TO UN

*Ramsey Clark was the former Attorney General in the US government and now he is leading the struggle against the US aggression around the world. This letter was sent at the end of 1998 to the United Nations Organization.*

**P**resident Clinton had chosen anniversary of the armistice ending World War I to further threaten Iraq with another violent assault. He charges that failure to act "would permanently damage the credibility of the UN Security Council to act as a force for promoting international peace?"

He taunts the UN to an asserting "Failure to respond (will) embolden Saddam to act recklessly". It is a threat by a weakened President thinking only of his personal political standing.

US contempt for UN authority is shown by its defiance of the recent General Assembly of the UNO vote of 152 to 2 protesting the US criminal blockade of Cuba (US and Israel were the 2 dissenting votes-Editor) its refusal to pay dues to the UN year after year and its selective defiance, and support for violations by other nations of General Assembly, Security Council and International Court of Justice resolutions and decisions.

The Security Council is already responsible for military attacks against Iraq, albeit at the insistence of the US, including 110,000 aerial sorties unleashing 88,500 tones of bombs across Iraq in January and February of 1991 which destroyed 80% of Iraq's military capacity according to the Pentagon.

UN inspection teams over a period of seven years claim to have destroyed 90% of the remaining Iraqi missiles capacity and designated military material, thus making Iraq unable to be of serious threat against anyone.

Turkey regularly attacks Iraq and its Kurdish people at will, with US support.

### SUDAN BOMBING

The destruction off the EII Shifa pharmaceutical plant in Khartoum, Sudan, on August 20, 1998, illustrates the US strategy. The plant produced 50% of the pharmaceuticals available in Sudan.

It produced 90% of the antibiotics used for malaria which is the leading cause of death here. Major international drug manufacturers do not produce drugs for malaria, which is reaching epidemic proportions in parts of Africa and Asia.

A single US missile attack destroyed the single most important health facility in the Sudan and will cause thousands of deaths.

UN inspection teams in Iraq over a period of seven years have been manipulated by unproved US claims time and time again.

The inpection teams are full of US and British intelligence agents with a single purpose to making false claims that Iraq is developing nuclear, chemical and biological weapons.

The USA spends over \$275 billion presently on arms an-

nually, than the rest of the Security Council of countries all combined together.

The US has in its stockpiles more nuclear bombs, chemical and biological weapons, more aircraft, rockets and delivery systems in number of sophistication **than the rest of the world combined!**

Included in this arsenal are 20 commissioned Trident II nuclear submarines any one which could destroy the whole of Europe.

It is the USA that should be inspected. Dr. Martin Luther King observed in 1967: "US is the greatest purveyor of violence on earth." □

## JUST FACTS!

*Based on an article by Peter Worthington, columnist for the bourgeois newspaper, The Sun, Canada.*

\*The U.S. military are ready to kill for its country, but not die for it.

\*Despite the rhetoric from Bill Clinton or Tony Blair and their allies, there has never been genocide in Kosovo.

\*President Clinton (the present war hawk-Editor) was a draft-dodger during the Vietnam war.

\*Clinton, Blair, Chretien, et al, don't mind Balkan civilians being killed from 15,000 feet in a remote, antiseptic ways that lulls the consciences of those who pull the triggers, push buttons or those that give the orders.

\*If we're going to try war criminals, I'm thinking of President Clinton himself.

\*Attacks on Sudan, Iraq and Afghanistan served to divert attention momentarily from Monica Lewinsky's testimony

\* President Clinton is safe for the moment, but if any tinpot dictator did what he's done he'd be a candidate for a war crimes trial. □

## OPEN FORUM

# "NATO-US War Policies Crumbling...Face Defeat..."

By RAY STEVENSON

The splintering of NATO-US policies of undeclared and genocidal war on the sovereign state of Yugoslavia and the Serbian people widened to calamitous depths on May 27th when the omniscient New York Times carried a 35 column inch anti-war broadside by former Democratic USA President "Jimmy" Carter under the headline "HAVE WE FORGOTTEN THE PATH TO PEACE?"

Branding the illegal war as having become "senseless and excessively brutal" the former President noted that despite "after more than 25,000 sorties and 14,000 missiles and bombs, 4,000 of which were not precision guided"..."there is little indication of success"...

(we do not know what "success would mean to him).

He said that while "formidable commitments are being made in the Balkans where white Europeans are involved, no such concerted efforts are being made by leaders outside Africa to resolve the (African) disputes. This gives the strong impression of racism" (emphasis added).

Carter had noted earlier that from Eritrea to Angola "from the Red Sea in the northeast to the south west Atlantic coast (no territory between was) peaceful "territory". Millions have died in protracted, ongoing and savage bloodletting wars.

In a clearly defined attack on the war-strategy of the Clinton-Pentagon and NATO force, he wrote: "As the American led force has expanded targets to inhabited areas and resorted to the use of

anti-personnel cluster bombs the result has been damage to hospitals, offices and residences of a half-dozen ambassadors, and the killing of hundreds of innocent civilians and an untold number of conscripted troops...missiles and bombs are now concentrating on the destruction of bridges, railways, roads, electric power, and fuel and fresh water supplies. Serbian citizens report they are living like cavemen and their torment increases daily".

In his critique of the war policy Carter listed several points, while asking: "How did we end up in this quagmire? We have ignored basic principles..."

"NATO-US "quagmire" resulted from:

\*"Short circuiting principles of patient negotiations leads to war, not peace:

\*"By-passing the Security Council weakens the United Nations..."

\*"The exclusion of non-Governmental organizations from peace-making precludes vital "second-track" opportunities for resolving disputes..."

\*"Ignoring serious conflicts in Africa and other underdeveloped regions deprives these people of justice and equal rights.

\*"Even the most severe military or economic punishment of oppressed citizens is unlikely to force their oppressors to yield to American demands.

\*"The United States insistence of the use of cluster bombs, designed to kill and maim humans is condemned universally and BRINGS DISCREDIT TO OUR NATION (as does our

refusal to support a ban on land mines.)" (emphasis added)

In a television interview with CNN's Larry King, the former President revealed that he had put his differences on the war and its conduct before President Clinton two weeks ago, but had received no response from the White House.

On the same day, special envoy Chernomidrin of Russia stated in the Washington Post that unless there was a cessation of the bombing on Yugoslavia he would recommend to his Government that Russia withdraw from all diplomatic procedures now underway. This could have a dual effect: it would tell NATO to sink in its own sea of undeclared, genocidal war on the national sovereignty of Yugoslavia, thus rendering NATO to the status of international irrelevancy in any other disputes. No Nation-State then could, have the slightest confidence in the long-term military bloc, conversely *IT COULD PROVIDE THE BERSERK NATO HIGH COMMAND AN EVEN LONGER PERIOD TO PURSUE KILLING BOMB RUNS WITHOUT FEAR OF AN "INTERVENING" DIPLOMATIC PEACE EFFORT.*

The wrenching, thunderclaps of a "failed" Imperialist and Transnational Corporate war strengthen and underline our confidence in the forces of "Peace and Friendship" in an expanding world-wide movement of "Solidarity Among All People".

**ALL POWER TO THE PEOPLE !!!**

*Note:*

*The studied and almost universal downplaying of Carter's statements attests to the "psychological" war being carried on against the general public. The truth is a hidden commodity! (Editors)*

Dear comrades:

I am extremely busy now that the official unveiling of the Soviet War Memorial is finally has taken place on Sunday, May 9th at the Geraldine Harmsworth Park in London, sponsored by the Soviet Memorial Trust Fund.

I so eagerly await each copy of the Northstar Compass, I read it avidly and it gives me great strength to carry on, especially this horror in Yugoslavia. I cannot stop hating this horrid Imperialism. The media daily is full of lies and untruths.

We organize and demonstrate and having good results in influencing the people, but our marches of protest are not reported in the media.

I'm enclosing the official program of the unveiling of this monument, which took us years to organize and promote and finally to achieve.

Under normal circumstances I would have been proud of what we were able to

achieve, but, even though I received the invitation to be part of the ceremony and be on the official guests platform, I cannot bring myself to be standing near to the Russian Foreign Minister and our George Robertson, MP, who is the Secretary of War and a hawk on the question of Yugoslavia.

I therefore declined this honor and if this was under different circumstances, I would attend. I shall pay my homage after the official ceremony.

Enclosed is \$100 towards gift subscriptions towards our Soviet comrades.

With fraternal greetings  
Albert G. Williams

*We at NSC support your decision in not attending. The work you and other comrades have done to make this Monument a reality, speaks more than the official ceremony!*

## STATEMENT - VOLGOGRAD REGIONAL TRADE UNIONS COUNCIL

NATO's military aggression has put an end to the whole era, the era of Peace, which lasted in Europe since 1945. In spite of all the efforts, neither Russia, nor the world community succeeded in averting the missile and bombing attacks on Yugoslavia.

Serbian fighting spirit to stand to death for the freedom of their motherland, the readiness to combat the superior forces of the aggressors, will result in another Vietnam.

There is no alternative to a political solution to this conflict.

The escalation of NATO's onslaught, the attempt to neglect the Russian factor and role in international affairs can be considered as a blunder by USA and NATO's authorities; as a violation of the United Nations Charter.

We the citizens of Volgograd (Stalingrad) know what war is, and what sacrifices were made by our people.

Nobody is forgotten and nothing is forgotten. The Volgograd Regional Trade Unions Council demands the stopping of this madness and the annihilation of a whole nation. We demand the urgent convocation of the Security Council of the UN. We ask everyone to render any possible assistance to the people of Yugoslavia.

Stop the aggression in sovereign Yugoslavia!

RUSSIA

Dear comrades:

We thank you very much for the Northstar Compass that we receive regularly. It's important for us to know that we have so many friends in different countries. We are thankful for your support of our struggle for socialism.

As to our opinion about NSC. I am a member of the CPRF and I represent in this letter opinions also of many comrades. We think that you are absolutely correct about the lack of unity amongst the Communist parties and movements. However, despite the differences between our leaders, local Communist organizations and other left wing movements very often act together. For example, on October 7, 1998 we organized a very strong united protest action.

It seems to us that unfortunately NSC tends to stress the contradictions in the Communist movements and especially contradictions between the CPRF and other Communist parties. We are glad to see in most of your articles that show our cooperation, our common objectives and actions. Of course, CPRF is far from perfect. Although it's easier to point out contradictions, but it is much harder to find ways for a united struggle. The great Stalin managed to cooperate with Imperialists to fight against Fascist Germany. So, we must follow Stalin's wisdom in our struggle against creeping fascism, and act together with any allies.

I also represent the regional organization of the Young Communist League. I received your letter in which you ask for support to the Call for an International Council for Friendship

All translations from Russian, Byelorussian, Ukrainian, Czech and Slovak by Michael Lucas.

and Solidarity with Soviet People. Our organization will do this, but please send us more copies of the Call.

If NSC is interested in some reports from Russia, Rostov region and Novocherkassk, please let us know. We can send materials either in Russian or English.

Comradely yours  
J. Burtsev

*We are very glad to have received your letter and your offer of articles. Our readership would certainly appreciate hearing from the Rostov region plus from the Young Communist League.*

*NSC prints all letters and articles that we gather from ALL different newspapers, journals, peoples movements and political parties. In 7 years of constant mailing of NSC to the CPRF and its newspapers, we haven't yet received a letter or a publication from these comrades. If you're able to arrange this, we would be only too glad to publish them for our readers.*

*Regarding our attitude to Zyuganov, we print and comment about his leadership, based mainly on the information we receive from other left-wing and Communist parties. As you well know, in order to have cooperation, it takes two to Tango!*

*Yes, Stalin was brilliant tactician, and Marxist, Bolshevik, understood the situation well in those dangerous times and took the correct decision, even with the enemy!*

*We are not a political party, thus are free to point out things that we feel (in our wisdom, as dedicated friends of Soviet people since 1918) are incorrect, based on the over 60 newspapers, periodicals, fax's and E-mail that we constantly receive each month from the Soviet Union. IF we receive any news, letters, newspapers that represent the view of the CPRF, we certainly shall publish them.*

Teachings of Lenin and Stalin of criticism and self criticism by all members of the Communist party, should also include leaders. One of the problems in the CPSU since Stalin died was this lack of criticism of some leaders. If there was, maybe the present calamity would not have happened, if the over 20 million party members and millions of Komsomols would have done as Stalin and Lenin taught.

Again, welcome to the signatories for an International Council, which must be a United Front for helping resurrect the Soviet Union until such time that the UNITY in the Communist movement inside the Soviet Union is accomplished! □

LENINGRAD, RUSSIA

Dear comrades!

On behalf of the Editorial Board of the unified organ of the Party of Russia Marxists-Leninists, the "Proletarian Newspaper" we are informing you that we have unified our efforts to draw firm steps towards the formation of a United Russian Marxist-Leninist Party of Russia. We are resolute in our struggles against revisionism and for socialism and the dictatorship of the proletariat, following the guidelines drawn by Marx, Engels, Lenin and Stalin. We fight against the revisionism that uprooted socialism after the death of Stalin.

The class struggles in Russia are rapidly approaching decisive battles. Today, more than ever there is a need for the unification of the workers' movement with revolutionary theory. And that is the task of our Marxist-Leninist revolutionary party. The duty of the revolutionaries is to establish class organizations, use all existing form of class struggles, create new ones, workers' unions, workers' soviets.

Within the working class we must fight against reformism and anarcho-sindicalist illusions. We must show the superiority of socialism to capitalism in all spheres of social life, appeal to the glorious times of the socialist Soviet Union, the USSR of our fathers and grandfathers.

The growing resistance is now facing fascist repression's as was recently shown by the death of a leader of the workers union "Defense". In a large number of regions, the central government of Russia is represented by elected members of the leadership of the so-called Communist Party of Russian Federation (CPRF) led by a concealed opportunist Zyuganov whose policies are not going to bring socialism to the Soviet people. They are heirs to the former revisionist CPSU (after the death of Stalin) and have entered the central government, taking key positions in the reactionary Yeltsin Government in order to help perpetuate the capitalist exploitation and to prevent a socialist revolution.

In this regard the fraternal solidarity from Marxists-Leninists all over the world would be crucial and greatly welcome.

The Editorial Board want to establish fraternal links with Northstar Compass.

**GEORGIA**

Dear friends:

I was shocked of the attack against NSC and you personally. But it is a pleasant piece of news that the world of the International Council is proceeding well. This encourages us and gives us hope that the number of countries grows and getting involved by the year 2000.

I cherish no illusions concerning the aggravating situation in the Balkans. Yet, my unquenchable thirst of optimism allows me to cherish hopes for a peaceful solution of the conflict there and for the final victory of reason.

Keep on sending the NSC copies, one also to Marushvili and one to me, just in case one copy gets "lost".

I'll do my best with the articles and I also am glad that the last article you found interesting.

As a volunteer, as you comrades are, I appreciate the work that is being done and my contribution to NSC is our joint effort for the resurrection of my Motherland and the maintenance of peace all over the world.

Comrade A. Maruashvili, our Chairman and I send you greetings on the International Day of Solidarity of the Working People and on the Victory Day. We wish you strong determination and much enthusiasm in the struggle for unity of peoples against fascism and imperialism.

Sincerely yours  
Helen Blau  
Secretary of  
Georgian Association of

Dear comrades:

The "Red Rebel" publication and its readers would be more than delighted to be part of the signatories for an International Council.

I was pleased to see NSC taking note of the neo-Nazi "National Bolshevik Party of Russia". The NBP is a party of international neo-Nazi grouping known as the "European Liberation Front", known by its French names of 'FEL' of which the American Front and the Canadian Front, both of which are infamous for their violent attacks on leftists and immigrants.

Our Russian and other Soviet comrades should not be under illusions by tolerating the presence of these fascist vermin who are clearly visible with their marches and uniforms and who boast of their links with Anpilov and Andreeva. How do I and countless others know this? Check their Website on Internet, to see what these "Bolsheviks" plan to do!

**SPAIN (r)**

Dear comrades:

First of all we want to thank you for sending us NSC, also set up an International Council for Friendship and Solidarity with Soviet People" appreciate

it very much, since for us it is a very valuable source of information and experiences about what is currently happening in the former USSR. For us it has been a nice surprise to receive Northstar Compass and to discover its contents.

We fully agree with the "Call" and its objectives and spirit of solidarity against the imperialist intervention in the former USSR. We agree to be one of the signatories of the "Call", we support any initiative aimed at promoting the development of the socialist revolution in the USSR and other former socialist countries and at weakening the strength of imperialism.

The possible reason for the "missing" of your previous letter is the repressive control that the Spanish political police exert on our Party. The permanence of a fascist regime in our country for more than 60 years, under its old and new facade, is a key element that conditions all of our public actions and the life of the country. Nowadays all of our forces are centered in building a powerful revolutionary Anti-fascist movement of resistance and in strengthening the communist vanguard, the Party, in order to overthrow finally the regime and build socialism.

We have great interest in attending the First Congress in order to establish an International Council, and we will spare no effort necessary to secure that our representative attends.

In relation to our position concerning Russia, we enclose some extracts in English of a Political Report presented by our Secretary General, comrade Arenas to the IV Congress of the PCE(r), which was successfully held in September in the most strict underground.

We consider that the current imperialist aggression against Yugoslavia is also addressed against the revolution-

ary movement in Russia, as a first step of the NATO to subjugate, first the Balkans, then Ukraine, Byelorussia and finally Russia, to their entire control.

We want to maintain regular correspondence with you comrades and exchange of materials. We shall send you some party documents in English from a book called: "The strategy of the revolutionary struggle" and the "Approach to the History of the PCE". We hope that you will find these documents interesting.

We invite your comments and suggestions.

Best comradely greetings and congratulations in your work.

FROM THE  
**SLAV COMMITTEE**  
CZECH REPUBLIC

Dear friends:

We were very happy to receive your letter in which you state that you are interested in our work that we're doing in the Slav nations in Central and Eastern Europe, and offering solidarity in our common struggle.

The solidarity of the Slavic peoples, together with all peoples is extremely important on the European continent, to make certain that all people and states are equal, with no military blocks and no European integration.

We're agonizing in our hearts over the aggression by US/NATO against Yugoslavia, which is not only unjust but against all International Laws. It has nothing to do with

moral attitude or either on "ethical" grounds. Our Slav Committee as well as the International Slav Committee, which at the moment is situated in Prague, are cooperating with all organizations of peoples, protesting against this aggression and we're demanding the ceasing of this unprovoked aggression.

We, as Czechs are very critical off the Czech president Vaclav Havel and the government of Milose Zeman, because they agreed to this aggression. This is the first aggression by our people in this century, which means that we are part of the aggression and devastation being perpetrated against Yugoslavia. We also know that the Czech and Polish republics were ensnared into NATO very quickly in order that when the blame is produced NATO can point to the two Slavic countries and we shall be also branded as practicing genocide against a brother Slav country. This is also a gambit to start misunderstanding and animosity between all Slavic peoples. But we know of our anti-Fascist struggles during the Second World War.

Dear friends:

We are very glad that you are interested in the upcoming Slavic Congress. Its venue seems likely to be in Byelorussia. We on our part shall inform our Byelorussian friends about your intended participation and your plans to hold your Conference after ours. We shall immediately refer this news to our friends in Byelorussia.

Again, we thank you, even though you are far away, but you are close to our hearts in solidarity with our aims and of showing interest in our work.

Yours

Professor Bretislav Chvala  
Chairman

### **EASTERN EUROPE SHIFTING BACK TO SOVIETS!**

I and many of my friends feel that after the shortcomings and experiments with the undemocratic parliamentary systems in former USSR, a movement towards returning back to Soviet styled organizations is taking place.

Additionally, the complete collapse of capitalism in these areas has formed the necessity to shift back to socialist or at

least to socialist-type structures of production. People are becoming to realize that an economy here cannot work without some democratic control.

In Byelorussia and in some parts of Ukraine there are being established (in spite of the government laws) Soviet styled systems, working from the grassroots level. Even in Russia the Soviet still exist at basic levels, but they do not as yet have political power.

Under Soviet system the candidates were nominated at the level of public organizations, trade unions. Now the candidates are nominated by party officials far from the local level

Soviet democracy fulfills democracy on a higher level than parliamentary-type systems. The theory is based on clear mathematics in political processes. The citizens of the "new free" parliamentary countries see now this self-evident fact.

It is difficult to visualize the really working anti-imperialist fight without Soviets or even without serious aim at political power based on grassroots level.

Comradely yours

### **We support the CALL!**

To:  
Comrades of the  
Organizing Committee

We are hereby acknowledging receipt of your letter and Call for the formation of a future International Council for Friendship and Solidarity with Soviet People. We express our backing for this important and necessary Communist initiative.

For our Chilean Communist Party (Proletarian Action) as well as for all genuine communists, solidarity with the heroic Soviet people, its working class, the homeland of Marxists, Leninists and Stalin's homeland - is not only an internationalist duty, but it's also a new opportunity to put things in their right place. It is also an opportunity to unmask reaction, capitalism and imperialism, as well as the traitorous revisionism. Also, to shame those opportunists who are nowadays criticizing the experience of Revolution and Socialist construction in former Soviet Union.

As we are conscious and respectful of the necessity of constructing this International Council on a wide basis, we and our PC(AP) will be part of it in order to defend the flags of proletarian revolution, of socialism, proletarian dictatorship, while participating in anti-capitalist and also anti-imperialist struggle. We shall also work to unmask revisionism as Lenin and Stalin did.

We reiterate our support to any dedicated initiative in support of Soviet people.

With communist greetings

Dear comrades:

We receive NSC regularly for which we thank you and we support your decision to stop using the expression of "Former Soviet Union". The Soviet Union is living until the Soviet people exist!

At the end of February our rally sponsored by the most active members of the All Ukraine Movement "For the Soviet Union" took place in Kiev. The participants of this mass meeting supported your "Call" for Friendship and Solidarity with Soviet People".

The Editorial Board of the Journal "Communist Herald" also support the Call.

I wish you comrades success and happiness when you celebrated May Day and the Anniversary of the Great Patriotic War!

Dear comrades:

I saw NSC lately and am subscribing now plus ordering video and audio cassettes. I support your struggle against imperialism and the resurrection of the Soviet Union. Best regards comrades!

Dear Editor:

How right you are to say about Russia, and the former USSR generally, "There are many leaders but no LEADER!"

Unfortunately this does not just apply to Russia. All over the world, there are numerous communist parties and sects in each country, some fairly large. Like true religious sects of petty-bourgeois shopkeepers, they never mention the competition. Polemics is alien to their nature. Sign up and sell the paper or journal, nothing else!

Stalin, by contrast had a distinguishing feature. He knew what to do. He did not ignore the opposition in the Communist movement. He trounced it!

We need more leaders like Stalin today!

Dear comrades:

I'm enclosing \$105 towards the NSC Sustaining Fund and a video of Dzerzinski.

It does my heart good to see the name of Stalin appearing more and more in NSC and it is significant that the grandson of Stalin has joined together with Anpilov and others. I remember being at a meeting in Scotland in the winter of 1942 when the faith of mankind hung in the balance. We, workers sent a telegram to the **MAN OF STEEL**, who at the helm of the Red Army was mankind's only hope of defeating the fascist hordes which they did at Stalingrad!

Or who can ever forget the heroism of 20 Soviet Red Army men who just 57 years ago stopped the Nazis at the Dugesevkova Halt, just outside of Moscow! Stalin said that there is nowhere to retreat behind us is Moscow! The Nazis were stopped and this action is known as the "Miracle of Moscow".

I grieve terribly when I see the present day rulers are doing to the country which so bravely fought in the Great Patriotic War. Let us speed the day when the time for retribution and the glory of socialism will once again prevail.

Sincerely  
Robert McNicol

The only word we can add is -  
Amen! □

# Sustaining Fund Drive

In our last issue, we appealed to our readers and supporters to help us in our efforts to replenish the "SUSTAINING FUND" in order that our work in helping Soviet people in to rebuild their Soviet Union could continue. We want to thank all those who have responded so generously to our call for help. Especially people like Ray Stevenson who donated \$1000 and to Michael and Helen Lucas and family who donated also \$1,000. Before press time we received \$1000 donation from Lydia S.Karhu, our devoted reader-USA.

Dear readers and friends, your donations are really appreciated no matter how big or small they might be. Remember that with a donation of \$100 or more you are entitled to either a free book or video from the list we have publicized in this issue of NSC. Or you can have a two years subscription to Northstar Compass.

We must help the Soviet people restore the Soviet Union and before the situation deteriorates into a Third World War due to the cowboy logic of President Bill Clinton which might destroy this fragile planet. Remember, that every action creates an equal and opposite reaction that is a basic law of physics, but its also true of human relations. We here at NSC are sure that the people on this planet will rally to the call and put NATO and all its weapons of mass destruction on the scrap heap of history. Future generations will study U.S.-NATO's genocidal behavior as a lesson in what not to do when trying to resolve differences between peoples and nations.

Now more than ever your support is needed dear friends. Together we shall prevail and save this planet from the scourge of capitalist greed and globalization!
