PHONE: 987-8720

Dear Friends:

It wasn't long after we won the battle of the B1 Bomber that the scramble for the arms race was intensified. There are indications already that the \$25 billion saved will be channeled into other weapons projects such as the FB-111 bomber. It is quite evident that Carter and the Congress are preparing to fund the dangerous Cruise Missile and the 'people-killer' Neutron Bomb.

President Carter is expected to make a decision on the production of the Neutron Bomb by the end of October. Hence, the October 15th Demonstration at the White House is an important action to make demands on Carter to stop the production of the Neutron Bomb and the Cruise Missile.

October 15th is the last day of a World-Wide Week of Protest and Mass Action Against the Neutron Bomb called by the World Peace Council. In a statement circulated to all international and national organizations the World Peace Council stated that the recent grave decision of the U.S. Administration to develop the Neutron Bomb, a horror weapon of all times, has shocked all who stand for peace in the world. It is an arrogant disregard for humanity's desire to stop the arms race, to ban all weapons of mass destruction and to achieve general and complete disarmament.

The world-wide protest has already involved hundreds of thousands of people demanding a ban of the Neutron Bomb and an end to the arms race. Protests have taken place in Australia, Belgium, Japan, Greece, West Berlin, Denmark, France, Poland, Yemen.

ONCE THE NEUTRON BOMB IS USED THE WORLD IS IN A NUCLEAR WAR WHICH CAN STRIKE ANYWHERE. WE URGE YOU TO JOIN THE DEMONSTRATION AT THE WHITE HOUSE ON OCTOBER 15th. Representatives of organizations are coming from the Midwest and from the East Coast.

The rally will take place in a church and will include representatives of Congress.

Yours for Peace,

Angelo D'Angelo
acting coordinator

DO YOU CARE ENOUGH ABOUT THE NEUTRON BOMB TO STOP IT?

You've probably heard about the Neutron Bomb — the "people-killer" — that President Carter wants to add to the U.S. nuclear arsenal. And, like millions of other Americans, you were probably appalled that your tax dollars were being spent on such a brutal, inhuman weapon.

This is the first time in our history that we, the American people, have had the opportunity to stop a new nuclear weapon before it is deployed. And never before has it been so urgent that a weapon be stopped.

Public outcry stopped the ABM, the SST and the B-1. We can do the same for the Neutron Bomb. We can't afford not to.

DEMONSTRATE

IN WASHINGTON, D.C.

SATURDAY · 12:30 PM AT THE
OCT. 15TH · **RALLY AT 3:30 PM**
WHITE HOUSE
