

# HELP BUILD A NUCLEAR FREE EARTH

**B**e the first on your block to declare yourself a Nuclear Free Zone—off limits to nuclear weapons and their supporting systems. Then enlist your friends and neighbors, your school or workplace, your city and your state.

**N**uclear Free Zones are a way to build on the momentum of the nuclear weapons freeze, a way to implement your yearnings—and those of millions of others—for a world free of nuclear weapons. They are a way to get serious about building a constituency for peace. For more information about nuclear free zones and how to form them, use this order blank.

Yes, I want to help make the Earth a Nuclear Free Zone. Send me more information.

I enclose \$5 for an organizer's kit, which includes a Nuclear Free Zone certificate, a button, a bumpersticker, and a window sticker.
