ONE OF THE BEST MARXIST-LENINIST-STALINIST-BOLSHEVIK NEWSPAPERS IS 'DIALOG' - PUBLISHED IN THE CZECH REPUBLIC

This publication is very analytical, informative, topical and covers the rising class struggles that are being waged not only in the Czech Republic, but all over former Socialist Countries and all over this planet of ours.

They point out the real dangers of revisionism, pseudo-communism, euro-communism and opportunism, and expose in a Marxist way this danger - they show the correct way forward and they do not mince words as did Lenin and Stalin.

If there surely is to be soon a newspaper that would become the guiding light for the near future Communist International - it should be DIALOG!

We greet you dear comrades with your noble effort, your constant dedication and for never departing from Marxism-Leninism-Stalinism!

YURI GAGARIN-THE FIRST MAN IN SPACE

April 12, 1961, is a date that will be remembered in the history of science and human endeavor along with one of the most memorable achievements of all time.

The horizons that opened up in physics, chemistry, biology and other sciences are incalculable.

The reception in Moscow was overwhelming and the Soviet people were very proud of the achievements by Soviet science and Socialism.

Below is the autographed book with Yuri's signature on it that he presented to Michael Lucas at a reception in Moscow, dedicated to the Canada-USSR Association.

Valentina Tereshkova, the First Women Cosmonaut - spoke about this when she was a guest at a reception at the Canada-USSR Association Friendship House in Toronto. Valentina Tereshkova was the Chairperson of the Soviet Society for Friendship with Foreign Countries during 1970's.

APPEAL TO READERS FOR HELP IN ORDER TO CONTINUE PUBLISHING NORTHSTAR COMPASS!

Dear friends, dear comrades and dedicated readers of NSC-

It is hardly ever that I have to appeal to all of you to help NSC to continue being published, as we have been doing for over 20 years - first as "Focus on Friendship" and now as "Northstar Compass."

But the present financial situation is such that I MUST appeal to each one of you to give us financial support to the best of your ability - not only for the English Edition - which basically is the flagship for the other Editions, but also to help the French, Russian and Spanish Editions. Our comrades in Nepal are able to publish regularly the Nepalese Edition without our help.

Our benefactor (SCRC) who helped us for 20 years are not able to do so at this time due to their cost of renovating the Friendship House (where we're staying rent-free) that was built in 1860!

In order for us to keep on doing our friendship work and show support to the Soviet people by publishing the truth of their daily struggles for the rebirth of Socialism and of the USSR - we MUST GET YOUR GENEROUS SUPPORT!

Comradely yours

NEWS FROM FORMER USSR

RUSSIA MUST BE READY TO COUNTER ANY MILITARY THREAT FROM THE WEST

Interfax-Military- March 20, 2013

The Cold War rudiments are still there, both in their organization, such as NATO -EU, or their propaganda, such as their Russophobia - this has not disappeared - stated Deputy Prime Minister Dmitry Rozogin.

"Western civilization is a condition exhausting resources and they are not going to give up the level of its consumption which they have become used to for a long time. This means they are going to struggle by all means for access to the world's resources, before their situation becomes more severe!

Meanwhile new capitalist giants are immersing unto the world arena. The 21st Century will not be just a promenade on the Avenue."

STATEMENT BY THE AUCPB ON THE SITUATION IN KOREA

March 22, 2013

We have repeatedly stated that the AUCPB supported and will support the leadership Songun policy of the DPRK. We fully support their nuclear test and launch of an artificial satellite by their domestic carrier rocket, suggesting the establishment of a reliable DPRK nuclear shield, which in the current circumstances, is the real way to protect the country from foreign aggression.

However, we do not support the statement made about the possibility of the DPRK launching a pre-emptive nuclear strike against its enemies, as this puts the socialist country on par with the imperialist aggressor -the United States, the instigator of a Third World nuclear war.

The apparent military gains from this will inevitably turn to a political defeat on either of the sides who dared to deliver a pre-emptive

nuclear strike. On the Korean Peninsula today in opposing each other - the DPRK-USA - what is at stake not only the life of DPRK citizens, but also those of neighboring countries, and the end - of the whole humanity.

EX-SOVIET IMMIGRANTS ARE CHANGING ISRAEL

Associated Press Feb. 12, 2013

In most parts of Israel now it is hard to find a single Hebrew sign in Sea of Cyrillic signs. Shopkeepers address customers in Russian, groceries are stocked with non-kosher pork, red caviar and rows of Vodka bottles and chess playing is seen all over the street cafes.

After the dismemberment of the USSR over 20 years ago, more than 1,000,000 former Soviet citizens with Jewish roots decided to immigrate to Israel. By virtue of their sheer numbers in a country that has less than Eight Million people, these Soviet immigrants have the tenacity and cling faithfully to theirs - thus these Soviet immigrant Jews have now transformed Israel.

Today these Russian-speaking well-schooled immigrants wield an outsized influence in every corner of Israel society, from academia and technology to military and political life.

Every fourth employee of Israel's flourishing high-tech industry is a Russia-speaking immigrant, as is ever other engineer in Israel. More than a quarter of all Olympic Coaches in Israel are Russian trained and Russian speaking coaches.

Regarding the artistic talented immigrants are janitors, crane operators, or production line workers. Artistic talents like in former USSR are not at the top of getting jobs list, culture takes last place after military production.

But friction is under the surface for now. Most of these Soviet immigrants have very tenuous Jewish lineage. The majority of

Israel Jews accuse the Russian immigrants of bringing in prostitution and not having any love for Zionism.

"Soviet immigrants, even after all these years never connected to Israel society. They feel and will always feel that they were connected to one of the most glorious countries in the world - the USSR" said Roman Bronfman, a n Israel lawyer who was born in Ukraine.

RUSSIA DEMANDS U.S. PROTECTION FOR ADOPTED RUSSIAN CHILDREN

Prensa Latina

The Russian Duma (Lower House) showed great concern due to deaths of domestic violence of some Russian adopted children, like the death of a little Russian boy, Maxim Kuzmin in a Texas city.

Maxim 3 years old and Kiril his 2 year old brother, were adopted in late 2012 from the orphanage in Pskov. The deaths were not accidental and now there is a police investigation going on.

The Russian Government enacted the "Dima Yakovlev" law in December of 2012, which bans the adoption of Russian children by US citizens.

TWO JAILED TRADE UNION LEADERS FREED

The International Union of Food Workers in Ivory Coast said that Basile Mahan Gahe, General Secretary of the National Trade Union Centre was freed from Prison and has returned to his trade union duties.

Meanwhile the Trade Union Federation (ITUC) reported the release of the jailed Russian trade union leader Valentin Urusov. He was arrested for organizing a protest rally at testate-owned Alosa diamond mine, and sentenced to six years in a penal colony.

Both trade union leaders thanked the local and international solidarity support that gained them their freedom.

OPEN LETTER TO PRESIDENT BARAK OBAMA

Dear Mr.Obama,

Nearly one month after your election, your nation endured one of the most tragic schoolshootings to date. On December 14, 2012 20 children and six adult workers were shot to death at the Sandy Hook Elementary School in Newtown, Connecticut. The whole world saw you, barely holding back tears. You made a statement and promised Americans "to take specific measures in order to prevent another such tragedy." You received condolences from Presidents of many countries, even from Iraq.

But neither Europe, nor you have shed a tear on 81 people killed and over 160 wounded in Aleppo, as the result of bloody provocation of foreign sponsored terrorists. Students at the Aleppo University were attacked during the first day of their exams. Not only were students killed, but also refugees who had found shelter within the walls on this University.

Mr. President, do you know that during the military conflict in Syria, over 2,500 children were killed? Do you also know that these wild terrorist rip open the stomachs of pregnant women and play football with the embryos?

There is no excuse for another ruthless bloody provocation by these terrorists! Stop the violence in Syria! Leave President Assad alone! The people of Syria will decide their own fate. Any foreign intervention from outside will have unpredictable consequences, not only for this region, but for America as well!

Yours truly, Galina Savchenko-Kiev- Ukraine 15-01-2013

THE PILLAGE OF THE USSR

By TATIANA YAKOVLEVA

In 1987 the external debt of the US rose to \$146 Billions. On October 19 1987, Wall Street

crashed. Only a miracle could save the US in their dire straits and a miracle took place - and its savior was none other than Mr. Gorbachev. Gorbachev saved the US economic crash by ruining that of the USSR!

Here's how it was done:

In January of 1988, the restrictions and control on foreign trade were repealed. These restrictions in the USSR protected the domestic market of the Soviet Union. Without these restrictions which protected the domestic market and its low prices for food and essential consumer goods - in comparison

with the foreign markets - could not maintain itself for very long.

Then all of a sudden, USSR companies and individuals were authorized to export foodstuff, raw materials, electronic equipment, energy, chemical products and just about anything else!

It as if a powerful earthquake had swept all over the vast Soviet Union. It sucked overseas all products of value - groceries and manufactured goods disappeared from the shelves.

The pillage of Soviet gold reserves

On July 21, 1989, new approved regulations on the export of gold and all precious metals were approved by the Government of Gorbachev. The work of the existing Soviet Customs for the last 70 years was instantly wiped out.

Gold reserves in quantities up to then unheard of, was thrown onto the internal speculative market - and then shipped overseas. The newspaper "Moscow Komsomol" described this jewelry trade in this way: "A glittering picture of unrestrained speculation, the sales quotas of the State Treasury (Gokhran) for jewelry was thus allocated over and over. The State Treasury was overrun with mail requests for new supplies of gold and precious stones." Even some newspapers like "Izvestia", "Soviet Culture" called outright for removal of all restrictions against the export of gold.

This got worse and worse

The same year there were exports overseas by private crooks-speculators and dummy companies and individual of over 500,000 color television sets, 200,000 washing machines, refrigerators, 1,400 fans etc. etc. etc. - and this was only from the Moscow region!

All of this rampant stealing of Soviet produced goods for private gain. This left the shops and stores with empty shelves. Even toothpaste was gone the tune of over \$60,000,000 and it just disappeared.

By the late 80s and 90s practically everything had disappeared from the store shelves, refrigerators, television sets and most other Soviet manufactured products.

Meanwhile Gorbachev's state media daily reported how the Soviet people are living well and have all of the goods that they never had or saw on the store shelves.

These boring insects, traitors and

exporters of Soviet made goods, eroded the once powerful ship that was the Soviet Economy, the USSR, the Socialism and reduced it to dust.

In 1991 the Soviet Union collapsed.

RUSSIA DENOUNCES THE USE OF ADOPTED RUSSIAN CHILDREN'S ORGANS

Com-news@yahcogroups.com
Moscow, April 1, 2013

The Russian Foreign Ministry said that it has information of the use of organs from these Russian children who died in America after being adopted. These deaths are still not clarified by the US justice system.

There is no way to clarify the number of deaths of these adopted children because the US Government does not collect any statistics.

Under Socialism in the USSR, children were taken care of by the State and were not shipped off or sold to other countries!

RUSSIAN WHISTLEBLOWER LAWYER WAS BEATEN TO DEATH 4 YEARS AGO AFTER EXPOSING TAX FRAUD AND RUSSIAN MOB MONEY WENT INTO CYPRIOT BANKS

William Browder was a major financial investor in Russia and this expose was published in the Toronto Star, March 21, 2013

OLIVIA WARD
FOREIGN AFFAIRS REPORTER

In life, Sergei Magnitsky was a modest Moscow tax lawyer with a dogged determination to track financial wrongdoers.

More than four years after his death, he is part of a spiralling banking crisis that has swept up Russian money launderers, Cypriot citizens and their increasingly desperate government in a tornado that could take down the tiny island state, and suck in already wobbly countries in the eurozone.

Cyprus is struggling to stave off bankruptcy with a €10-billion (\$13-billion U.S.) bailout that lenders insist must be tied to taxes on Cypriot bank accounts — touching off fury on the island and in Russia, whose high-rollers use it as a tax haven. On Wednesday, Cyprus pleaded for an alternative loan from Moscow, so far without results.

Some of Cyprus's bailout woes may be linked with Magnitsky's quest for justice, said his ex-boss, William Browder of Hermitage Capital Management, a former major investor in Russia, who hired him to probe murky Russian tax refunds in the mid-2000s.

"Sergei discovered a huge Russian tax fraud," Browder said in a telephone interview. "He found that \$230 million was stolen from the Russian government. But we knew there would be no accountability, so we followed the money ourselves."

Magnitsky said he had found a "web of corruption" spun by Russian tax officials who allegedly masterminded the biggest Russian tax heist of the century.

With the help of international police and journalists, he traced \$135 million in laundered funds, \$31 million of it washed through Cyprus.

But after blowing the whistle in The Russian authorities in 2008, Magnitsky was himself arrested, jailed and died in custody in November 2009 at the age of 37.

Documents obtained by Browder allegedly proved Magnitsky was beaten to death in prison, as well as denied treatment for a serious medical condition. But Russia dismissed the charges, and is instead pursuing a rare posthumous case against Magnitsky, as well as Browder, for tax fraud. The trial is due to begin March 22.

Browder's lobbying efforts for Magnitsky launched financial investigations in several countries, and the passage of a U.S. bill to deny travel and investment access to Russians accused of involvement in Magnitsky's death. Meanwhile, an international campaign continued.

"We wrote to police and prosecutors in all jurisdictions alerting them to the laundered money," Browder said. "A number of them opened criminal cases. Cyprus steadfastly refused."

He presented documents alleging that five Cypriot banks had received money from a Russian "criminal gang" linked with high-ranking officials in Russia's spy agency and interior ministry. In December, as Cyprus was in bailout talks with its European neighbours, it said it had launched an investigation.

By that time, Browder had extended his campaign to alert lawmakers in the Netherlands, Finland and Europe's economic powerhouse Germany, that Cyprus had stonewalled on the case.

They wrote to their financial ministers and it became a political issue in Europe" he said.

A report leaked to the German weekly Der Spiegel by the foreign intelligence service estimated that Russians, including 80 oligarchs, had deposited more than \$26 billion in Cypriot banks outpacing the island's \$23-billion GDP.

Suspensions of money-laundering and criminal activity made Cyprus's bailout more harrowing. European lenders questioned why they should rescue rich Russian tax evaders, and demanded that the pain be shared through a 10-percent tax on savings in Cypriot banks. On Tuesday, the island's lawmakers rejected the offer, and the government redoubled efforts for a Russian loan.

"Cyprus is a tax haven," said Dev Kar, lead economist for Global Financial Integrity in Washington and a former IMF official. "Foreign deposits in Cypriot banks are much larger than domestic ones. Two-thirds are foreign and one-third domestic."

Kar, the co-author of a study of illicit financial flows from Russia, said that more than \$211 billion has moved out of Russia since the heyday of "wild east" capitalism in 1994.

"That amount could be understated," he said. "But it's difficult to tell how much went to Cyprus because the system is so opaque." At the high end, he suggested, it could have banked \$100 billion in Russian funds. Russia's Regional Banking Association says Russians hold about \$20 billion in deposits in Cyprus. "This isn't just an abstract notion of money laundering," Browder said. "The Magnitsky case is a real-life example of something that everybody knows is going on. Right now, the Europeans are going to open the bank records on the case, so we'll see how it plays out."

IS PUTIN'S FOREIGN POLICY NEUTRAL?

In a news dispatch by the Foreign Ministry of Russia, it quotes Russian Foreign Minister Sergei Lavrov stating that: "Unilateral military activity around North Korea could cause a situation that could get out of control."

Mr. Lavrov also criticized the latest steps taken by North Korea and their military activities and foreign statements and their nuclear missile excesses. But here is the dagger into North Korea trying to defend itself against US Imperialism and their puppet South Korea.

Lavrov said- *We are actively supporting the UN Security Council response to these provocative actions of North Korea!*

The actions of the UN Security Council (which includes Russia) are just as guilty as US Imperialism for the grave situation on the Korean Peninsula.

US Imperialism is occupying South Korea with its troops and military bases for 50 years! This is a cynical and dangerous statement by Mr. Lavrov on behalf the Putin-Medvedev twins.

These Kremlin Twins have allowed this year a NATO Base to be established in Lenin's native city of Ulyanovsk in Russia.

U.S. MAY LAUNCH A PRE-EMPTIVE STRIKE AGAINST RUSSIA

Voice of Russia, Apr. 2, 2013
Interfax

Russian General Yuri Baluyevsky, Chief of Staff warned that NATO and US strategy is still

to launch a pre-emptive strike against Russia and China.

"NATO-US expect that Russia and China would respond with up to 100 missiles, not with 1,500 or 2,000. They are dreaming that they would be able to intercept the whole bulk of a hundred missiles and make themselves invulnerable after the first strike by Russia and China", said General Baluyevsky.

He added: "Washington pours over Ten Billion dollars per year into building up its global anti-missile defenses."

RUSSIA AND BELARUS CELEBRATE UNITY DAY

Moscow - April 2, 2013

This Unity Day is a tradition that originated 17 years ago after an agreement was signed of interstate integration. This process of integration is still not realized and the policies of privatization, capitalism or just masking their intentions is not working as it supposed to have started off in the beginning.

Both President Putin and President Lukashenko make grand statements for the media and have photo-ops for the press - but both countries are capitalist and more and more both have abandoned any semblance of socialism or any steps towards the resurrection of the Soviet Union. Instead of any small hint of socialism, both countries are seeing a rapid growth of nationalism.

The answer is for the many parties and movements are to join in a common struggle for real unified struggle for socialism and the resurrection of the USSR.

Opportunism, nationalism and euro-communism lead to fascism. Capitalist-nationalist unity does not lead to UNITY

Mr. Putin and Lukashenko.

**ON THE 60th ANNIVERSARY OF THE MURDER OF
I.V. STALIN - WE PRINT HIS 5 GREAT ACHIEVEMENTS**

“ I KNOW THAT AFTER MY DEATH A PILE OF RUBBISH WILL BE HEAPED UPON MY GRAVE, BUT THE WIND OF HISTORY WILL SOONER OR LATER SWEEP IT AWAY WITHOUT A TRACE”

On Stalin's 5 Great Achievements and their Lessons for the Proletariat

By Arlen Tracey

In a society which is divided into hostile classes, the views of these classes regarding history will be contradictory. In modern capitalist society, the historical views and analysis that present the interests of the bourgeoisie prevail in popular media, public discourse, and education. They are propagated at the expense of those views that reflect the actual nature of reality and thus serve the interests of the proletariat and human progress.

It is for this reason that Stalin, more than any other revolutionary leader of the proletariat is demonized. Stalin is not demonized for his political ideology, or for any particularly strong verbiage against the ruling class. Rather, Stalin is demonized endlessly for his real achievements for the working class.

Whatever criticisms can be raised of Stalin, from whatever sector of the proletarian movement, it cannot be disputed that Stalin's achievements in advancement of socialism on a world scale are unprecedented. This is the primary reason he is demonized in the modern bourgeois press, all other reasons being secondary.

During the period when Stalin led the Soviet Union, humanity moved toward communism in terms of millennia. (1) Stalin led the construction of a socialist economy; (2) he successfully divided the "united front" of the imperialists against the USSR; (3) he rid the world of fascism and brought down Japanese imperialism; (4) he expanded the socialist camp from a single country to encompassing one-thirds of the human race; and (5) he also greatly expanded and aided the Black Liberation movement in the United States.

These acts are unprecedented victories for the proletariat, and also unprecedented defeats for the bourgeoisie. No other leader has achieved so much in terms of real human progress. In the words of Jesus Christ, if you can "know him by his fruits", Stalin measures up as one of the greatest heroes among the global working class movement, by all honest measures.

Whatever his limitations, his achievements stand far above any other leader in history.

1. The Construction of a Socialist Economy

Prior to Stalin, the idea that the means of production could be held in common resulting in the creation of vast material abundance was only abstract theory. Marx explained the efficiency of socialism and historical path toward its achievement. Lenin led the 1917 Russian Revolution, and forged the first working class state.

However, it was not until 1928 that Lenin's economic definition of Socialism, i.e. "Soviet power plus electrification" became realized.

Stalin led the USSR in enacting the first "Five Year Plan." This resulted in a great expansion of socialist economic power; in reversing the continuing excesses of the New Economic Policy; and creating a system with 91% of all economic activity under public control. With the Five Year Plan, Stalin led the Soviet people in building a mighty socialist fortress. Electricity, running water, literacy, and food security was brought to the people of the Soviet Union.

The collectivization of agriculture, despite the often exaggerated hardship of its earliest years, resulted in an end to starvation and hunger in the Soviet society. The collective farm system that was forged was vastly superior to any other agriculture model in history.

In a few short years after the first of the "Five Year Plans" the Soviet Union was an industrial power on par with the United States and all other imperialists. The economic efficiency of socialism was proven. With no unemployment, no labor power was wasted; all Soviet citizens, from the smallest child, to the oldest woman, contributed to the collective economic expansion with every act of labor. No surplus value was created from their labor, and the tasks carried out were assigned based on a central plan, collectively drawn up.

With no competing industries or services, no advertising, and none of capitalism's useless professions, and none of capitalism's various wasteful necessities, all efforts were put toward the construction of a new world. Medical care, education, and all the things never before achieved in the dark days of the Russian "prison house of nations" became reality in the USSR, in a brief period of time.

Women joined socialist construction alongside of men. The world's largest hydro-electrical power plant was built. The world's most efficient system of tractor production was created. The Red Army expanded from being a militia of muskets and country rifles, to being the force that drove the Wehrmacht from the earth.

Stalin's leadership of the USSR began with a peasant economy of ox drawn plows, and ended with spacecraft, legendary military superiority, and a feeling of unprincipled terror on the part of the ruling classes of this earth.

The successful economic model of the Five Year Plan was copied and repeated around the world. The Chinese, the Koreans, the Cubans, and the peoples of Eastern Europe after their liberation repeated this successful economic model of construction.

The model involves full employment, broad discussion, and centralized economic planning. It is the "command economy" so demonized and despised by capitalists and revisionists. It has nothing in common with the various "mixed economy" schemes of Tito and Deng Xiaoping. It contains none of the blunders involved in the "de-Stalinization" efforts of Khrushchev. Unlike all of these horrific revisions of the socialist ideal, it was and is an economically successful model.

The USSR collapsed after years of revisionist meddling with this economic model. Khrushchev's "virgin land campaign", the various, rightly named "de-Stalinization efforts", and ultimately the open suicide of "Perestroika," brought down the powerful machine of Stalin's genius construction.

There is now no doubt that Socialism works as an economic system. Stalin proved this by making it work. Only due to historical falsification and mis-education can anyone claim "Communism is a good idea, but fails in practice."

There is no doubt a need to improve upon the model he created, but the ideas purported by revisionists about the

necessity of "market mechanisms" or the need for a combination of "cooperative, private, and public industries" in a socialist society is not based in any historical facts.

The Soviet economic experiment was repeated in Democratic Korea, in Cuba, in China, and in Eastern Europe. The construction of socialism has been a success by each and every possible measure of societal health.

Even liars like Robert Conquest spend their thousands of pages, not trying to deny the economic miracle of socialism, but rather spreading rumors and testimonials about political repression. All honest analysis of Socialist Construction shows it to be overwhelmingly successful.

2. Splitting the Imperialist Camp prior to the Second World War

During the early 1930s, a slogan of the Communist International was "Stop Imperialist War." There was a universal understanding among all of society, that the war that was looming would involve all the imperialist powers jointly attacking the Soviet Union, in order to restore capitalism. Such a war had taken place immediately following the 1917 seizure of power, and it was expected to resume throughout the entire decade of the 1930s, as the capitalist economy crashed and the "bailout" of war profits was yearned for.

The example of Stalin's first great achievement in socialist construction could not be tolerated by the world bourgeoisie. It proved before the entire world that there was no need for the capitalist parasite class, and their existence was merely an impediment to human progress.

The bourgeoisie was united in its hope to smash the USSR. However, Stalin broke this unity, saving the USSR from assured destruction, and unraveling several links in the world capitalist empire in the process.

The German Fascist Adolph Hitler went to the Vatican immediately after assuming power in 1933 and requested a "holy crusade against Bolshevism." Hitler's request expressed the wishes of both his fascist allies in Spain and Italy, as well as his appeasers in Britain, France, and the United States.

The brilliance of Stalin was his ability, between 1933 and 1939 when the war began, to divide the imperialist camp. In doing so, when the Anti-Soviet war finally broke out, the United States and Britain were on the side of the Soviet people against the fascists, and Soviet power was only forced to defeat German, Japanese, and Italian imperialism. This was itself a great difficulty, and if these forces had combined with the British and U.S. Imperialists, socialism might have been squashed entirely.

However, the opposite occurred.

Stalin learned from the tactics of the ruling class, who so effectively learned to have Social-Democrats turn their

guns on Communists, and Anarchists turn their guns on both Communists and Social-Democrats. The tactics used by COINTELPRO against the Black Panther Party, of dividing and creating false rivalries, were utilized by Stalin against the competing capitalist imperialist powers.

By 1939, an entire half of the "world united front against Communism," was convinced it was part of the "world united front against fascism," with pulls from all sides, confusing it.

The popular front, numerous calls for a "world democratic coalition", and finally the Molotov-Ribbentrop Pact divided and confused the imperialist camp to no end. By arranging for the imperialists to fight amongst themselves, and not engage in joint anti-Soviet aggression, Stalin was able to help ensure the victory of the Soviet people in the Anti-Fascist war.

Stalin played upon the great weakness of the capitalist economy, that being its fundamental divisive and competitive nature. The monopoly capitalist bourgeoisie, despite having united historical class interests, cannot have joint short term economic interests. Between sectors of the monopoly bourgeoisie there will always be contradictory financial interests.

However, among the ranks of the proletariat, the economic interest is fundamentally similar. Differences among the proletarian movement are strategic only as they struggle for the liberation of their class.

The popular front should not be confused with revisionism. The Comintern's popular front, engineered by Dmitrov and Stalin, was a tactic for defending the USSR. Revisionism is anti-proletarian ideology.

During the Cold War period, the Khrushchevite Revisionists openly surrendered to all imperialists. They never had the diplomatic brilliance of sowing disunity among the enemy camp. The Khrushchevites rather, sowed disunity among the Socialist camp, by attacking China and Albania, and embracing all-out class traitors like Tito.

The Khrushchevite Revisionists saw "socialism in one country", not as a great achievement and temporary victory in a global working class seizure of power, but as a permanent fixture which they expected the imperialists to respect. The doctrine of "Peaceful Co-Existence", despite sounding similar to the ideology proclaimed during the popular front, lacks the Popular Front's temporality and strategic nature. Khrushchevite revisionism views capitalism as an eternal system, to be "coexisted with" while socialist countries "peacefully compete" with it in a "world market."

Such verbiage of poisonous treason and surrender to the working class never entered Stalin's political vocabulary. His treaties, negotiations, and agreements with imperialism were always temporary.

3. The defeat of Hitlerite Fascism and Japanese Imperialism

The Soviet Union, by all historical accounts, was the decisive factor in the defeat of fascism and Japanese Imperialism. The battle of Stalingrad is considered to have been the turning point of the war in Europe. The Red Army marched through Europe, liberating concentration camps and executing Nazis.

Anti-Fascist resistance forces in France, Italy, Germany, Romania, Yugoslavia, Albania, and elsewhere were Communist led almost exclusively. The Communists of China were the main forces in defeating Japan. All of these global communist revolutionaries received direction from Stalin and Communist Party of the Soviet Union.

The brilliance of Stalin's second achievement of dividing the enemy camp was complimented by his ability to unleash bravery and heroism on the part of the Soviet people.

When Napoleon invaded Czarist Russia, it was the winter that turned him back, while many peasants greeted him as a liberator from the feudal aristocracy.

But when Hitler invaded the Soviet Union, purposely seeking to avoid the Russian winter learning from Napoleon's error, he was driven backward. Every Soviet person was a loyal soldier. There was no separation between the people and the standing army, only a united, working class together fighting a "great patriotic war."

The only traitors in the Soviet Union were among the bureaucracy and high ranks of the military. The much hailed traitors who went over to the Nazis were not workers, but well paid, non-Ideological officials who saw that Nazi imperialists offered higher wages than did the proletariat.

One wonders how horribly the Great Patriotic War would have been, if figures like Bukharin who openly opposed socialist construction as the "right opposition" and aligned with the "American Exceptionalists" like Jay Lovestone in the U.S., had remained high ranking party members.

Such "anti-dogmatists" and "economic gradualists", who openly opposed Socialist construction, might very well have been effective in bringing about much greater treason on the part of the military and economic bureaucracy in the USSR.

It was the Soviet working class and peasantry, and their champion, "the man of steel" who won the war. A better case for rectification campaigns and cultural revolutions of future socialist countries could not be made. Stalin's purges of disloyal "bloc of rights and trotskyites" within the soviet government are likely what led to the victory over fascism.

4. Expanding the Socialist Camp

During the time of Stalin, the countries where the working class held political power multiplied by great number. At the time of Stalin's assuming the leadership of the Communist Party, only one country on earth was ruled as a Dictatorship of the Proletariat. However, at the time of his death, 1/3 of the human race lived under Socialism.

Stalin's aid, insights, and support of Mao Zedong was key in the victory of the Chinese Red Army.

The Red Army, directed by Stalin, liberated Eastern Europe from Nazism. The "People's Democracies" soon became Socialist states, led by Marxist-Leninists whom Stalin had trained.

Kim Il Sung received personal instruction and training from Stalin, and soon led Democratic Korea, driving the U.S. troops from the northern half of the peninsula.

In the "Korean War", the Soviet Union, People's Korea, Eastern Europe, and China all joined together against the U.S. imperialists. Such united action on the part of socialist governments is historically unknown. Only Tito's Yugoslavia opposed this war for Korean Liberation and Self-Determination.

Since then, no effort has ever commanded such a high level of global unity. Such unity rendered McArthur's threats of nuclear war completely flaccid. Socialist global power was too strong.

1/3 of humanity lived under socialist governments, directed by Marxist-Leninist parties. Africa awakened in response, with an upsurge of anti-colonial revolts. Vietnam soon began the drive toward re-unity.

Even a section of Germany, a foreign mighty imperialist power, began the construction of Socialism as the "German Democratic Republic."

How can the person who expanded Socialism from the impoverished, Soviet republic of the "New Economic Policy" to this level of strength be dismissed as anything but a Communist of the greatest possible caliber?

5. Aid to the Black Liberation Struggle in the U.S.

No world leader outside of the United States has played as key a role in the Black Liberation struggle in the U.S. as did Stalin. By making clear his unapologetic and unrepentant anti-racism, Stalin turned the Soviet Union into a key weapon against Jim Crow Apartheid.

The Soviet people had huge demonstrations in Red Square for the Scottsboro Nine, a group of Black youth falsely accused of rape who faced the death penalty. The mother of one of the Scottsboro nine toured the USSR exposing the horrors of Jim Crow and Lynching in the U.S. South.

If it were not for Stalin, the Black Liberation movement in the U.S. would be much weaker, and never have achieved anything near what it has achieved today.

If it were not for Stalin, China would never have had a revolution and be a world economic power as it is today.

If it were not for Stalin, the Anti-Imperialist movements in Africa, Asia, and Latin America would never have risen to be so powerful.

If it were not for Stalin there would be no Congress of Industrial Organizations in the United States, or Social Security, or unemployment insurance.

If it were not for Stalin the social-democratic governments of Europe would not have been forced to grant concessions like National Healthcare or Free University Education.

Stalin was a rare kind of individual who affects history like no other.

The fact that so many modern Marxist-Leninists attack and demonize him is a tragedy. If the modern revolutionary movement wishes to advance and regain the strength it had during Stalin's time, we must embrace, study, and learn from the man who got us there.

So much about the man is unclear and unknown. Even the smallest details about his life are relatively unknown, frequently falsified, and unclear.

What is clear is that the man was Josef V. Stalin. The world shook due to his endless achievements for all downtrodden and oppressed people.

Stalin wrote extensively on the National Question, and while he led the international communist movement, the view of Black people in the U.S. as a Nation was universally understood and upheld.

Leaflets circulated among southern workers, Black and white, which spoke of the USSR as the "new north" and Stalin as "the new Lincoln."

Share-croppers unions were forged, despite the refusal of the American Federation of Labor to aid these historic efforts.

South Carolina was in a state of Civil War as share-croppers battled Klansmen and the National Guardsmen. Armed struggle rocked Gastonia.

Angelo Herndon, a Black youth, became the world famous leader of Black Southern Communists in the United States.

Paul Robeson spoke extensively of how the Soviet Union was the great friend of Black people in the U.S.

The dream of a "Negro Soviet Republic" filled the lips of Black freedom fighters, long before the "Republic of New Afrika" was formed. The Communist Party embraced the demand for right to independence in the Black Belt, with land being provided to the descendents of slaves to hold in common under a Communist government. This is the dream that countless armed Black revolutionaries in the

United States died for in battles with the police and the Ku Klux Klan.

The Communist Party in the U.S., while upholding and practicing the political line Stalin put forward, was the key anti-racist organization of the time. It put forward the political line of "Organize the South." "Right to vote clubs", the League of Southern Youth, the National Negro Congress and many other Communist-led anti-racist organizations pushed civil rights forward before Martin Luther King was even born.

Even during the dark days of McCarthyism, when the Communists in the U.S. were weak and isolated, Stalin was key in aiding the Black liberation movement. The lynching of Emmitt Till became known worldwide because the Soviet Union, even after Stalin's death, projected it across the world, showing the ugly racism that existed within the belly of U.S. Imperialism.

Long before Martin Luther King, and the other civil rights leaders whom the U.S. history books have sanitized, were figures like Harry Haywood, James Ford, Claudia Jones, and Paul Robeson. All of them remain outside of U.S. historical narratives because they were unrepentant Marxist-Leninists, who saw Stalin as he was, a great hero and friend of all oppressed people.

The National Negro Labor Congress, a long forgotten revolutionary Black organization, was key in fighting for integration in Northern industrial centers.

Over a decade after Stalin's death, in Detroit, when Black Auto-Workers formed the Dodge Revolutionary Union Movement (DRUM) they rightfully embraced Stalin. His portrait hung in their offices, and they loudly rejected the revisionist politics that dominated the USSR beginning in 1956, as well as the Trotskyists and Revisionism that dominated the U.S. left.

The Black Panther Party also embraced Stalin, rejecting both Trotskyite and Khrushchevite Revisionism. The ideology of Lenin, Stalin, and Mao was on the lips of Huey Newton, Eldridge Cleaver, and Bobby Seale as they built the world historic organization which shook the world.

Stalin's program of winning liberation for the Black Belt South was embraced by the Black Liberation Movement long after his time. In every printed edition of "Final Call", the Nation of Islam proclaims their demand for a national territory inspired by Stalin. Malcolm X's finest speeches contain references to "the struggle for land."

While Khrushchev sought to restrain the world revolution with "peaceful co-existence", the last speeches of Stalin surged with enthusiasm for world Communist revolution. The "Stalinists" in the United States were always the closest friends of the Black Liberation movement. The Trotskyists snubbed the Black Revolutionary movement as "narrow nationalism" and "lumpenism." The revisionists sought to subordinate the struggle of Black people to the Democratic Party.

At anti-war rallies it was the Revolutionary Youth Movement, the Weathermen, and other Stalinists who always raised support for the Black Panthers. When the Trotskyist thugs in the National Mobilization to End the War would try to confiscate pro-Black Liberation Placards, the crowds would fight them off with makeshift clubs while chanting "Every Chicker Needs A Pot! Every Icepick Needs A Trot!"

Conclusion

There is not a person on this earth who is not personally affected by Stalin's greatness.

If it were not for Stalin, fascism would have won the Second World War.

ISRAEL'S COMING CIVIL WAR: HAREDI JEWS- MILITARIZED ZIONIST STATE

Professor James Petras

Israel is heading into a crisis of Jew versus Jew confrontation, which will have a major implications for its relations with the Palestinians, as well as its Arab neighbors.

Even before the forcible imposition (founding) of the State of Israel, the Haredin Jews were opposed to Zionism. Today they are staunchly opposed to the Zionist State for religious, ethical and highly militarized State of Israel.

They oppose Israel's violent cleansing of over 850,000 Palestinians from their homeland and the forcible expansion of settlers on Palestinian lands.

The Haredi Jews have reasons to fear and loath the secular militarist Zionist State and its politicians. The Haredi Jews focus on building a better life and they reject the racist Zionist ideology. They struggle against militarism, money laundering, financial speculation of the elite class, human body parts trafficking and the real estate swindles by the overseas Zionists engaged in procuring multi-billion tribute from the US Treasury.

Facing the prospect of Zionist Israel losing future cannon fodder for its territorial expansion and the Zionist's frenzied attacks on the Haredin Jews who are against violence and serving in the military - the Haredin Jews will engage in massive demonstrations and disobedience.

It is one of the great ironies of history that the world anti-imperialist movement should find their most consequential allies among Israel's most traditional and religious movement.

OBAMA'S POLICY PROVIDES POVERTY TO THE U.S. MASSES

From Global Research

There can be no denying that unprecedented number of American people of all ages and creeds, are increasingly frustrated by the Obama government and the corporate financial machinations, which keep them struggling to make ends meet, while effectively jeopardizing their long potential to secure an adequate and fair standard of living.

Obama's announcement last month of further government cutbacks (in the middle of American job crisis, no less), puts millions of Americans directly under the wheels of an economic steamroller that is being driven straight across the **most vulnerable sectors of American society!**

The working class knows that Wall Street markets are manipulated by powerful figures to serve the interests of the few elite, the same figures who control and determine the economic trends and direct them in their favor - at the expense of the broader American public.

COMMENT-

It's time for the American public to wake up and realize that Obama does NOT represent the majority of the American people!

WHY THE SYRIAN PEOPLE CALL THEM RATS

By ArabSouri

Colonel Gaddafi of Libya before NATO invaded the county and murdered him, called them rats when they failed to do the complete job themselves without US invasion.

In Syria, we all call these hired mercenaries that are supported by the West, RATS, because they live underground sewer-like tunnels that they built over the years for the present battles. They did not

suspect that the Syrian Government forces would discover all of these rodents terminate them in their own sewers like rats that they are!

UN DEMANDS PROSECUTION OF BUSH-ERA CIA CRIMES

cig_news@legitgov.org

The US Government has not prosecuted any of its CIA agents for human violations. On March 4, 2013 a United Nations Investigator has demanded that the US Government publish the classified documents regarding the CIA's human rights violations under former President George W. Bush, with the follow up to be the prosecution of these officials.

The program on CIA's of rendition and detention of suspected "terrorists" have remained top secret and classified documents. The UN Investigator, Ben Emmerson, said that these classified documents protect the names of these CIA individuals who are responsible for some very horrific human rights violations.

US GENERAL DEMANDS TO KEEP 20,000 US TROOPS IN AFGANISTAN ONWARDS

By Gopal Ratman -March 5, 2013

The General who heads the US Central Command gave this candid proposal to the US Congress. This Marine Corps General James Mattis, who is retiring this month, told the US Senate Committee that US must have this larger US presence in Afghanistan way after 2014, not what the US Defense Department is proposing.

He also endorsed the NATO proposal that the US-trained and supported 352,000 Afghan troops should remain under US command way after 2016.

General Mattis also told the Pentagon that, "I am paid to take a rather dim view on Iran and Iranians."

WALL STREET JOURNAL EXPOSES THE ROLE OF CIA IN SYRIA

March 23, 2013

<http://www.legitgov.org/breakingnews>

The US Central Intelligence Agency (CIA) has been feeding information to the select rebel fighters in Syria, in order to make them more effective against the Syrian Government troops. The WSJ quoted former and present US Government officials who stated that under the present aim of President Obama, the main aim and funds sent is to strengthen the effectiveness of these rebel fighters by all means possible.

The CIA has also sent a large contingent of officers to Turkey in order expedite shipments of arms and supplies to the rebels from all the US Gulf Region allies.

AFGHANISTAN ACCUSES U.S. OF BEING IN COLLUSION WITH THE TALIBAN

Voice of Russia- March 11, 2013

The President of Afghanistan Karzai made very hard statements against the United States of America of "being in collusion with the Taliban - in fact he charged that they are working with them in order to keep destabilizing the country, giving the proven record of destabilizing other countries in order to facilitate control over them. US has the aim to stay in Afghanistan for its geo-political reasons."

He also charged that Washington and the Taliban were in bed together.

Another reason for US and the Taliban working together is to guarantee the exploitation of the pipelines delivering oil and gas to the USA main financial backer - China. The U.S. plan is to take care of Iran and Syria - this will then open up the oil and gas to flow all the way from and to China and on to the Mediterranean and on to the ravaged United States market.

WHY IS PRESIDENT OBAMA BACKING AL QAEDA TERRORISTS

By Women's Rights Advocate

The Faculty of Architecture at the Damascus University in Syria, came under attack on March 28, 2013 by Western backed terrorists, resulting in the death of 15 students and injuring scores upon scores of students and staff.

This is not the first time these that these terrorists have attacked educational facilities in Syria. They bragged to the Western press that that is their aim and that they have received new weapons and they are going to destroy more facilities in Damascus.

Obama and US arm these terrorists even Mr. Obama knows that they are killing, raping and terrorizing the population. These are clearly cases of war crimes that the US is conducting in Syria.

The students at these Universities - if they will live - they will certainly make certain that all of these war criminals and their backer will be prosecuted in the future as war criminals.

that he had connections to al-Qaida to attack a US-base jet and strike at a high-profile US target - hiding a sophisticated device which he hid in his underwear.

Now the CIA admitted that this "underwear bomber" was a paid informer for the CIA.

HOLLYWOOD AND CIA SCREEN PROPAGANDA

From Global Research

One of the most pervasive trends of the 21st Century western culture has become an obsession in America. Hollywood corporate studios spend hundreds of million of dollars in order to craft and precisely tailor historical world events to suit the present political paradigm in Washington.

Foreign policy observers have long known that Hollywood reflects and promotes the US Government policies (in turn, this policy is determined by Israel and its supporters). This policy was made public when Mrs. Michelle Obama announced an Oscar win for "Argo"- a highly propagandist anti-Iran film. Amidst the glitter and excitement, Hollywood and the White House reveal their pact and send out their message in time for the upcoming talks surrounding Iran's nuclear program.

During the Cold War era, the CIA's Psychological strategy in Hollywood was (an example in the Paramount Studios) the CIA agent Luigi Luraschi was a Paramount Studios Executive Director who secured the agreement of top Paramount Directors, to include Negroes into films of some "well dressed Negroes" whose lines to speak indicating that "he is free man". The purpose of these changes was "to hamper the Soviet's ability to exploit its enemy's poor record in race relations and to create the impression of America, which was at that time, still mired in an era of racial segregation.

The interlocking of Hollywood and the CIA remains as tight as ever under President Obama. A case in point is the following: "There's an annual gathering at Idaho Sun Valley, in which several hundred biggest names in US Media and all Hollywood Studio Directors convene with the CIA top brass to discuss US Media Strategy for the coming year.

The Venezuelan Armed Forces will support the people, proclaimed Diego Molero, Minister of People's Power for the defense of Venezuela. The military are united with the revolutionary ideals that the Commander in Chief Hugo Rafael Chavez instilled in them.

The Venezuela Army will be deployed to safeguard the safety and peace of the people, as well as the Constitution of the Bolivarian Republic of Venezuela, ready to give everything for their homeland

Molero assured the Venezuelan Executive Vice President Nicolas Maduro that they can count on the Bolivarian Revolutionary Armed Forces to defend the country's sovereignty

STATEMENT ISSUED BY THE MARXIST- LENINIST COMMUNIST PARTY OF VENEZUELA ON THE DEATH OF COMMANDANTE CHAVEZ

We express our grief and solidarity at the physical loss of Commandante President Hugo Chavez Frias to all workers and peasants, students, women's organizations, revolutionary, anti-imperialist, socialist and Bolivarian parties and organizations of the masses.

We call on the working class, to prepare to resist and defeat the reactionaries who will not hesitate to take advantage of this difficult time to thwart through violent means the gains and demands that we have achieved under the leadership of President Chavez.

The acts of sabotage, of hired killers, the terrorism, food shortages, propaganda of disinformation and manipulation will intensify.

The death of President Chavez must not mean the decline in popular organization, but it must serve as an impulse for future struggles against the class enemy. We must not believe in phony condolences of the local right-wing, which on dozen of occasions tried to assassinate the Commandante.

The right-wing is evaluating what actions to take now. It is no coincidence that the Venezuelan Government has expelled two US Military Attaches for their conspiratorial work.

We strongly call upon all revolutionary elements to close ranks against the capitalist and imperialist enemy.

If the pro-imperialist bourgeoisie tries take advantage of this hard time of grief of the masses, the people must respond forcefully and apply revolutionary violence.

Socialism can only be built with the worker-peasant alliance in Power and the people in arms!

"Israel is an important partner in NATO alliance. The security of NATO is linked to the security of Israel and the stability of the Mediterranean and the whole of the Middle East region. Our (NATO) alliance attaches great value to our political dialogue and our practical cooperation. Israel is one of our longest-standing partner countries. HUNGER STRIKE BY GUANTANAMO PRISONERS IN ITS 47TH DAY

com-news@yahooqgroups.com

This hunger strike by these inmates against the undeserved punishment at this controversial US naval base in Guantanamo, on Cuban territory, threatens to spread to Washington in face of US Government's attempt to minimize it. The hunger protest began on February 6 when six prisoners from the so-called "Camp Six-Block".

Guantanamo Prison is on Cuban territory was occupied by the US in 2001 and converted into a prison for holding without a trial, anyone that Washington deems a terrorist suspect. There are over 170 prisoners there after they were captured abroad and in Guantanamo prison all that time without a trial.

This Centre is described by the many International Humanitarian Organizations as the present day Concentration Camp, where many forms of torture are applied to these prisoners, such as solidarity confinement with extreme temperature or being tied in a fetal position for over 24 hours and denied any food.

These American prison guards learned very well from the German Nazi Guards in WW II Concentration Camps!

WHAT THE VATICAN WOULD WANT YOU TO FORGET ABOUT POPES THAT HAVE GONE WILD

This is just a small summary of some debauchery, murder, incest that was and is going in the Vatican

POPE ALEXANDER -

Started the first recorded crime family in the Vatican - sired at least four children, hosted sex orgies within the walls of the Vatican. Had incestuous relations with his daughter, was involved in a few choice assassinations - and amassing a fortune of gold and precious stones.

POPE STEPHEN VI -

The perpetrator of the most bizarre events in papal history. After being elected pope he had his predecessor exhumed from his grave - brought to papal court and tried for various sins. The corpse was found guilty; his 3 blessing fingers were chopped off. He was then reburied, and then dug up again and thrown into the Tiber River.

POPE JOHN XII -

He was born of a 14-year old mother, sired by a man in the Vatican who was both his father and grandfather. He was only 18 when he became Pope and was killed by a jealous lover when he was 27 years old. He was accused but

forgiven of murdering several people. He violated virgins and widows alike.

POPE JOHN XXII -

He was the first pope to persecute "witches". Although he was the richest man in the entire world at that time, he was not happy with his life. He deemed that all the "witches" and "heretics" could be used after

death and that all of their land should be seized by the Vatican.

POPE GREGORY XII -

He burned John Huss of Bohemia at the stake after declaring his safety from his fate. What was his crime? He spoke openly against the Papal corruption in the Vatican. The Pope's response was "When dealing with heretics, the Pope is not obliged to keep his word."

POPE PAUL JOHN II -

He was against birth control and he was very weak in criticism of the pedophile Catholic priests in the world - secret church swapping, hiding the records of accused pedophile catholic priests. Obviously Pope John II thought that pedophilia is more forgivable than birth control.

POPE BENEDICT XVI -

Finally the world media exposed him that he was part of the German Nazi Youth. He really wanted to be active in these young Nazis. Why not then denounce the Nazis when he became Pope? He was supposed to be closest to God!

POPE FRANCIS -

The recently elected Pope was promoted by the world media as a Hollywood Star. He is now accused of covering up during Junta reign of Argentina his complete silence on the brutal dirty war against the people by the fascist military dictator of Argentina Jorge Videla.

The above is a just a very small expose of the goings-on by these so-called Popes that the Vatican promotes, hides the truth, and together with Imperialist media, promotes them as saints that are dedicated to god and practicing goodwill to humanity!

THE RISE OF THE FOURTH REICH

THE SECRET SOCIETIES THAT THREATEN TO TAKE OVER AMERICA

The United States is indeed on the road to become the Fourth Reich, the continuation of the philosophy of "Nazi National Socialism" thought to have been vanquished more than half a century ago. Such a concept may seem absurd to many people who cannot see past the rose-colored spin, hype, and

disinformation poured out daily by the corporate mass media, most of which is owned by the same families and corporations that supported and financed the Nazis before World War II.

Many uninformed Americans see this as neo "neo-Nazism". But this is a misnomer. There is nothing "neo" or new, about this trend. Nazism ever died. The philosophies of fascism are alive and very active in the United States. Unfortunately younger Americans cannot understand the nuances of differences between fascism, US corporate power, democracy, and a democratic republic.

While Allies in WW II defeated the Germans, we failed to defeat the Nazis. Corporations in the US, plus the Vatican allowed many thousands of Nazis and war criminals to set themselves up in the USA, traveling on passports issued by the Vatican as well as under previously classified project called "Project Paperclip."

These Nazis and war criminals brought with them the Nazi ideology. This ideology is based on the Illuminati premise that the end justifies the means -which includes unprovoked wars of aggression and curtailment of individual liberties. This has gained sway in the US - "the land of the free and the home of the brave."

These Nazi criminals and their young protégés now, plus the loot

that they grabbed from Europe during WW II, started to create corporate front companies in the US, Spain, Portugal, Sweden, Turkey and Argentina. In Switzerland they set up over one hundred fronts -in this world banking hub that continued to handle Nazi money before, during and after the end of World War II.

These run-away Nazi war criminals utilized the stolen wealth of Europe, wormed their way into the top echelons of corporate America, slowly buying up and consolidating companies into giant isn't multinational conglomerates. They met very little or no resistance from US corporate leaders, who had supported them in previous years and they could not resist the temptation of coming obscene profits.

Or were they checked by US Government or other US corporations.

The corporate America and the US Government, after the end of WW II became very fearful of the "communist threat". Corporate America and these runaway Nazi criminals soon *became* partners in the new version of America - The Rise of the Fourth Reich.

This great expose 436 paperback book by the author became the best seller on the new York Times Best Seller List.

JEWISH SETTLERS INJURE PALESTINIAN CHILDREN IN WEST BANK

Prensa Latina. April 1, 2013

Palestinian children who were attacked by Jewish settlers in the West Bank, are in hospital with different types of injuries on their bodies. Two buses full of children were returning from a school excursion on Sunday when they were ambushed and stoned by the Jewish immigrants who settled in Nablus locality, West Bank.

The United Nations considers these Jewish settlements illegal. Seven children were seriously injured by the stones and are in hospital. They range in age from 7 to 11.

These attacks happen practically every day by these Zionists - and these attacks are always being protected by the Israel Army - in order to force the Palestinians into an exodus from their lands.

SYRIAN PRESIDENT DECREED LAWS FOR SEVERE PUNISHMENT FOR KIDNAPPING OF CIVILIANS

This decree of sever punishment against those who commit these crimes of kidnapping people, a recurrent phenomenon by these US supported foreign-armed groups during the present conflict.

The kidnapping of Syrian and foreign civilians is one of the common practices of these mercenary bands operating in the country, with the aim of getting money from the terrorized families or the next of kin.

Journalists and foreign officials have been and are victims of these kidnappings. A journalist from Ukraine, Anjar Kochneva - a case in point - a demand was made for \$50 million dollars. She was one of the lucky ones that managed to escape her captors.

US-NATO-EU is the culprits that are responsible for these crimes in Syria and for the devastation and killing of thousands of Syrian people. Editor of NSC.

EUROPEAN UNION OR GERMAN REICH?

From NEW ZEALAND HERALD - March 25, 2013

This morning while listening to the news on CBC radio that there was a big demonstration by people in Cyprus, where the government (under pressure of EU) was going to pass legislation that will allow it to go into private bank accounts and help itself to citizen's money in order to remedy the insolvent financial situation of Cyprus.

I also received a German article as an e-mail stating that the US intelligence agencies are about to start watching the financial status of every single US citizen (but not the rich corporations).

Hey, if it works in Cyprus, it will work everywhere. Do you know that they own every banknote anyway? If you destroy paper currency you can be charged for damaging government property - similar to your passport. "Your" passport is the property of your government, and you are only privileged to use it until they revoke that privilege.

Oh, and do you think that you owe the land under your house?

You haven't seen nothing yet!

TENTH ANNIVERSARY OF US INVASION OF IRAQ

Global Research - March 31, 2013

In these days on this horrific Tenth Anniversary of the illegal invasion and near destruction of Iraq, answers should be given not alone for the thousands of deaths, but to those Iraqis who are cancer stricken, deformed, to their parents, their siblings and to all Iraqis and to all of humanity.

They were left with a land that is totally poisoned by the US depleted uranium that were dropped by the orders of President Bush and the Pentagon. From 1991 US Imperialism and NATO did horrendous war crimes, especially the bombing and devastation in the city of Fallujah. There were hundreds of charred bodies in the streets and those that were half-eaten by the stray dogs.

Even some US correspondents wrote that: "All forms of nature were wiped out from the landscape of Iraq. This is the crime of the

Century!"

The following quote shows the mentality of White House rulers. This is what former First Lady Barbara Bush said on the TV Program "Good Morning America" on March 18, 2003

"Why should we hear about body bags in Iraq and deaths? I mean this is not relevant, so why should I waste my beautiful mind on something like that?"

Of course George and Barbara Bush then went to church, prayed, and were blessed and of course god forgave them!

TRUTH IS THE TRUTH

Israel isn't Palestinian. Gaza's only adversary. Gaza's southern border remains largely under the control of Egypt's dreaded secret police, the Mukhabarat, which has links to the CIA and the insidious Israel's Mossad.

THE EVIL EMPIRE

RAY O' LIGHT

As befits the Evil Empire - US imperialism, under Bush and now Obama, have carried out this naked war of terror in Afghanistan, now unceasingly for well over a decade, as the USA the #1 terrorist, US Imperialism is waging war not only on the peoples of the rest of the world, but also on the masses of the people in the USA.

Now US Imperialism, with an African-American commander-in-chief, is ramming up its perpetual war machine in support of the French invasion and bombing of the North West African country of Mali, one of the poorest countries on earth.

It would have been impossible for France to invade Mali without US Imperialism "leading from behind". Along with the wanton death and destruction by intense bombardment. The United Nations estimated that over 30,000 civilians were either killed - dislocated from their homes in the first week of the French occupation.

WHO GETS PAID OVER \$7.6 MILLIONS PER YEAR ?

According to the Associated Press news item on April 3, 2013, Queen Elizabeth II of Great Britain gets this wage paid yearly, after the British Parliament passed the Bill.

Besides this yearly pay, Queen Elizabeth (according to Associated Press report) has a very gigantic personal investment portfolio with high dividends coming in yearly into her account.

NEO-FASCISM ON THE RISE IN HUNGARY AND GREECE - TURNING THE TIDE

For twenty years the people of Hungary are still waiting for the capitalist prosperity they were promised after Socialist Hungary was no more. The right-wing party

KDNP received over 52.63% of the votes - a two-thirds majority in the Hungarian Parliament. Neo-Nazis are now in control.

In Greece, due to the horrific austerity program by EU-IMF-US and the West, the Golden West Neo-Nazis are growing, but the Greek people are organizing and protesting against this growing fascist movement

MORAL DECODING 9-11- GRAND PLAN FOR US-NATO NEW WORLD ORDER

By Prof. John Mc Murtry

I was sceptical of the 9-11 event from the first time I saw it on television. It was on every major network within minutes. All the guilty parties were declared before any evidence was shown. The first questions of any criminal investigation were erased. Who had the most compelling motives for the event? Who had the means to turn two central iconic buildings in New York into a pile of steel and a cloud of dust in seconds?[i]

Other questions soon arose in the aftermath. Why was all the evidence at the crime scenes removed or confiscated?

Who was behind the continuous false information and non-stop repetition of "foreign/Arab terrorists" when no proof of guilt existed? Who was blocking all independent inquiry?

Even 11 years on these questions are still not answered.

But those immediately named guilty without any forensic proof certainly fitted the need for a plausible Enemy now that the "threat of the Soviet Union" and "communist world rule" were dead. How else could the billion-dollar-a-day military be justified with no peace dividend amidst a corporately hollowed-out U.S. economy entering its long-term slide? While all the media and most of the people asserted the official 9-11 conspiracy theory as given fact, not all did.

A Bay Street broker with whom I was improbably discussing the event in Cuba had no problem recognising the value meaning. When I asked what he thought about the official conspiracy theory, he was frank:

"You can call it what you want, but America needs a war to pull the people together and expand into new resource rich areas. That what it has always done from Mexico on. And that is what it needs now". When I wondered why none in the know said so,

he smirked: "It would be impolite", adding, "It affects the entire future prosperity of America and the West". And all the deaths? "It had to be done – far less than it could have been". The 19 Arabs with box-cutters reducing the World Trade Center buildings to powder in a few seconds? He shrugged.

Thus everyone since 9-11 is prohibited nail-clippers on planes to confirm the absurd – including 15 of the 19 alleged hijackers being from Saudi Arabia and several apparently still alive after crashing the planes into the buildings.[ii] As for the diabolical mastermind Osama bin Laden, he is never linked by credible evidence to the crime and never claims responsibility for the strike since the videos of him are fakes. "Ground Zero" is a double entendre. All doubts are erased a priori.

Decoding the U.S. Theater of Wars and the Moral Driver Behind

One already knew that suspension of belief is the first act of fiction, and that instant culture rules the U.S. One already knew that monster technical events are America's stock in trade. And one already knew the long history of false U.S. pretexts for war – so well established that a young strategic thinker a decade after 9-11 advises the right-wing Washington Policy Institute on how to create a crisis by deadly planned incident to make war on Iran – "it is the traditional way of getting into war for what is best in America's interests".[iii]

One further knew from past research that the U.S.'s strategic leadership since 1945 had been Nazi-based in information and connections and the dominant Central-European figures articulating it ever after across Democrat and Republican lines have a common cause. For over 40 years, Henry Kissinger as Republican and Zbigniew Brzezinski as Democrat have been protégés of David Rockefeller, selected as Trilateral Commission and Bilderberg Group leaders, and capable of any mass-homicidal plan to advance "U.S. interests". The banker-and-oil imperial line through David Rockefeller as paradigm case goes back to the Nazi period to John Foster Dulles (an in-law) and his brother Allen Dulles (OSS and then CIA Director), who Supreme Court Justice Arthur Goldberg called "traitors" for their support of the

Nazi regime. The Rockefeller Foundation funded and developed German eugenics programs in the pre-war years. Standard Oil supplied oil in collaboration with I.G. Farben, and so on.[iv]

The supreme moral goal and strategic methods governing U.S. covert-state performance have not only have been very similar in moral principle, but have deeply connected Rockefeller protégés Kissinger and Brzezinski, and more deeply still the theoretical godfather of U.S. covert state policy, Leo Strauss, who was funded out of Germany by David Rockefeller from the start.

The inner logic of covert and not-so-covert U.S. corporate world rule since 1945 unified under Wall Street financial management and transnational corporate treaties for unhindered control of commodities and money capital flows across all borders is undeniable if seldom tracked. This architecture of the grand plan for a New World Order is evident in both strategic policy and global political and armed action over decades that have seen the objectives increasingly fulfilled with constructed deadly crises as pretexts for war the standard technique.[v] Behind them as first post-Nazi historical turn lies the 1947 National Security Act (NSA) which created the Central Intelligence Agency (CIA) and explicitly licenses destruction of life, truth and other societies as institutional methods.

The CIA is charged with designing, planning and executing "propaganda, economic war, direct preventive action, sabotage, anti-sabotage, destruction, subversion against hostile States, assistance to clandestine liberation movements, guerrilla murders, assistance to indigenous groups opposed to the enemy countries of the free world". The linkage back to Nazi methods and world-rule goal as the highest moral objective is not just one of corresponding ultimate principles and strategic policy formation. It relied on Nazi SS intelligence sources and means from the beginning of the covert terror state.[vi]

There is no heinous means that is not assumed as the highest morality by this long-standing covert institutional formation linking to the presidential office.

It is an explicitly secret system involving at least the Defense Department and the CIA, the former with many more operatives and offices.

The Special Activities Division (SAD) to carry out NSA criminal operations, for example, also confers the highest honors awarded in recognition of distinguished valor and excellence – as did the earlier SS prototype in Germany. What people find difficult to recognize is that these actions, whether by the SAD or other system operations, are conceived as the highest duty, however life-system destructive and mass murderous they are. All participants are super patriots in their own view, as were the Nazis. Contradiction between declared and actual values, however, is a central mode of the covert system. For example, what can be considered a high duty in the perpetual U.S. “war on drugs”, the most morally obligatory commitment of the U.S. state, is at the same time a war against and with other drug operations to transport illegal hard drugs into the U.S. itself. [vii]

We might see here a parallel between foreign mass murder and domestic mass murder in 9-11, with both regarded as high patriotism in this supreme morality. In the background of America’s Reichstag Fire and likewise disclosing the unlimited geo-strategic action that can be operationalized as necessary and good, the post-1945 U.S. control of international sea-lanes made the covert U.S. state the world’s dominant narcotics controller so as to fund secret criminal war actions from South-East Asia to Latin America, entailing the addiction of its own peoples. [viii] This woeful method has been long known by experts, but came to be public knowledge in the Reagan-state funding of the death-squad Contras of Nicaragua as “the moral equal of our Founding Fathers” (a tribute he is said to have given later to the drug-running warlords and jihadists of Afghanistan).

These moral contradictions seem insane, but this is so only if one does not comprehend the underlying supreme morality of which they are all expressions.

Even U.S.-sponsored death squads torturing and killing tens of thousands of poor people across Latin America before

2000 and their return as direct covert U.S.-state method from Iraq to Syria after 9-11 -- called “the Salvador option” [ix] -- is regarded as necessary and obligatory to “defend the Free World and our way of life”. They entail ever more total U.S. world rule and self-maximizing position by strategic deduction from the supreme morality’s first premises.

The covert nature of the mass-murderous operationalization is never from moral embarrassment. It is solely to ensure effectiveness of execution against “soft” and “uninformed” public opinion, to terrorize people in situ from continued resistance, and to annihilate its leadership and community agency all the way down. Throughout the deciding moments of execution of the underlying supreme value program, global corporate money demand multiplication is always the ultimate value driver - as may be tested by seeking any covert U.S. action or overt war which is not so regulated beneath saturating propaganda of lawful intentions of peace and freedom.

These lines of underlying moral institution, policy, strategic plan, and massive life destruction at every level are indisputable facts of the covert and official faces of the U.S. state, but are typically not connected to the September 11, 2001 attack. Since most people cannot believe their own government or the “leader of the free world” could execute such a sabotage action as “9-11” in which thousands of American themselves died, these behavioral reminders forge the unifying meaning.

Worse still occurred in the last “war” before 9-11. In the background providing graphic example of how the covert U.S. state apparatus is structured to attack and murder U.S. citizens themselves to strategically maximize implementation of its supreme value program of transnational corporate money sequences over all barriers, there is the now known Operation Northwoods. Very familiar to the 9-11 truth movement, but unpublicized since its release under freedom of information laws, this Department of Defense and Joint Chiefs of Staff plan proposed that the CIA and other operatives covert operatives “undertake a range of atrocities” to be

blamed on Cuba to provide pretext for invasion.

“Innocent civilians were to be shot on American streets; boats carrying refugees fleeing Cuba were to be sunk on the high seas; a wave of violent terrorism was to be launched in Washington DC, Miami and elsewhere. People would be framed for bombings they did commit; planes would be hijacked”. [x]

All would be blamed on Castro the Communist in place of bin Laden the Islamicist, and invasion of desired resistant territory would be achieved as a triumph of American freedom and interests over its enemies.

Operation Northwoods was not, however, okayed by President Kennedy – perhaps another reason for his assassination and replacement by more pliant presidents to represent “America’s interests” in accord with the supreme morality. Underneath the stolen election of George Bush Jr. in contrast – whose family made its money, in part, by serving the covert financial requirements of the Nazi regime before and during the 1939-45 War – was a domestic and foreign administration which would push further than any in the past to advance “U.S. interests” to full-spectrum world rule. Its project included reversing the Roosevelt New Deal and the social state within the U.S. itself – “an anomaly” as Bush Jr. expressed the historical perspective and ethic at work.

This plan was more explicit in the published Project for the New American Century formed from 1997 on. It even supplied the need for a 9-11 event in its 2000 version, the year that Bush Jr. was elected and the year before 9-11. To indicate the “non-partisan” nature of the planning, Democrat National security Adviser Zbigniew Brzezinski had already hinted at the usefulness of a 9-11-style domestic attack to move policy forward in his 1998 book, *The Grand Chessboard: American Primacy and Its Geostrategic Imperatives*. It is with pleasure that I am sending you a copy of this my book "Soviet Airwomen of the Great Patriotic War" dedicated to these heroic women who through their courage helped the Soviet people defeat the fascist hoards that invaded the USSR.

We appreciate the Northstar Compass which always defends Socialism and Lenin and Stalin. Keep up the good work that you comrades are doing.

FROM VANCOUVER

Dear Michael:

I think that this would be of interest to NSC. There was a news item by WFFU about the CPRF Congress in Moscow. Overall the article was good, but I would criticize is their "restoration of

capitalism" that they had in their document report. Who needs "restoration of capitalism in Russia"? Only business! The people of the world need a news system; this is what the CPRF Congress should have been discussing. Dialogue is one of the best ways to arrive at the truth. This is just one quote from their report:

"The deep capitalist crisis in Europe and the whole world, the restoration of capitalism, the poverty, the large labour migration and the anti-union attacks against the achievements of the Russian people, demand coordination and internationalist solidarity between our unions."

Dear comrades:

Warmest greetings from distant Poland, city of Wroclaw and from the Czech Republic - and from the beautiful 1,602 meters high Snezka Mountain. I have many relations, contacts and comrades in this region between Poland and the Czech Republic.

The political life on the Czech Republic now is more to the left than before. Communists are now in Parliament and being effective and getting more and more votes.

The new President of the

Republic is a social democrat M. Zeman and has the support of the Communist Party of Bohemia and Moravia. This has a positive influence in all of Central Europe as well as in Poland.

Dear comrades of NSC and International Council, many good wishes and many good results in your noble work. Thank you for sending me every issue of NSC and publishing my article on China in the last issue of NSC.

Comradely yours
Professor Zbigniew Wiktor

FROM ISCHIA
ITALY

Dear comrade Lucas,

Thank you for your message on behalf of NSC and the International Council on the occasion of the 60th Anniversary of Stalin's death. It was very touching and so important; I have sent it to Domenic Savio, Secretary of our Communist Party, after translating it into Italian.

I also took the liberty of translating it into Portuguese language and sending it to the "Communistate Joseph Stalin in Brazil". This organization in Brazil is a pro Stalin-Lenin that collects all relevant material from all over the world about the glorious days of the Soviet Union. This material serves to dispel all the lies invented by anti-communists and opportunists.

They have a very popular Website in Portuguese that is read and referred to in huge numbers - their website can be referred to - www.comunidade Stalin.org. Your message was immediately put on their website under their website banner - NORTHSTAR COMPASS - and all the latest issues of NSC - signed by "Mensagem de Michael Lucas".

If the International Council and the Editorial Board of NSC decide to publish NSC in Portuguese Edition, you comrades can count on me to help in this much needed venture.

Salute, and good luck with your work.

Brotherly greetings

APPEAL FROM NEPAL WORKERS AND PEASANTS PARTY

Dear Comrade Michael Lucas

First of, we would like to extend our hearty greetings on the occasion of Year 201 and hope for your continued success in the long struggle for the restoration of the USSR and Soviet Socialism. We would also like to congratulate you on your 87th Birthday and wish you sound health and a long life. Your contribution for the great cause of Soviet Socialism and humankind will gain new heights in days to come.

It is our great pleasure to mention that we have regularly been reading your Editorials and articles in NSC and they help us to learn your views and ideas on different world issues. Our friendly exchanges of ideas will surely enhance our socialist movement and it has been a reliable source of information for the anti-imperialist forces of the world. Northstar Compass has been a great source of information for the anti-imperialist forces of the world.

Our young people and political cadres are waiting to learn about your life and struggles. So we would like you to send us your life sketch for our publication so that your long journey and relentless struggle for Soviet Socialism will prove to be a source on inspiration and enthusiasm for them.

The NSC still needs your able leadership and experience, but you

also need a little rest, so we suggest that this is a good time to start grooming a team of other comrades to assist you in producing NSC rather than electing a new Editor at the moment.

It is with immense pleasure that we inform you that Nepal Workers and Peasants Party has celebrated its 39th Anniversary last January 23, 2013 throughout the Nepal Nation, organizing rallies, discussion many programs, cultural and sport events with great enthusiasm. We did continue for many weeks. We hope that that celebration proved an opportunity to educate and empower the workers and youth of our country.

We know about the constant contribution by the Friendship House (SCRC) to the cause of publishing NSC plus the help to the Spanish NSC in Chile. We shall try our best to contribute from our side.

The political situation in Nepal cannot be termed good or stable, nevertheless if the situation does not deteriorate, Nepal can be an ideal place to hold the next World Congress in 2015! We would like you and other comrades from around the globe to give their opinion on our proposal. Or their could be a meeting of the International Council Executive could be held in Nepal?

We should also add that Nepal is a mountainous country with its capital city Kathamandu locate at an altitude of 1400 meters. And the Council meeting could also be held at a Hill Station at 1900 meters.

(Council Meeting can also be held in the capital if that would of any concern to the International Council).

Thank you once again for providing us insights on struggles for justice-loving people from all around the world, for truth and sharing our voice with the world.

Sincerely yours
Narayan Man Bijukchhen (Rohit)

RUSSIA**

Dear comrades-

Sincere greetings to all the comrades of Canadian Friends of Soviet People, Northstar Compass readers and members of the International Council for Friendship and Solidarity with the Soviet People - in your noble struggle for Socialism and the victory of Communism!

I'm sending you materials that I sincerely hope you will be able to utilize in the future in the pages of Northstar Compass.

(1) Constitution of the All Union Revolutionary Communist Party (ARCP) which at its 35th Congress that separated it from the former discredited CPSU

(2) A document that exposes the present bourgeois neo-fascist regime, which arrests scores of these very dedicated Marxists-Leninists-Stalinists and holds them in jail in such conditions as were practiced by the German Gestapo Fascists!

Much was written and published by our Soviet people and articles in NSC in defense of one of the political prisoners I.V. Gubkin. If possible please publish our appeal to the head of the correctional facility in Vladivostok.

There are scores of other comrades that are in jail for standing up against Putin-Medvedev regime. In Kazakhstan in the city of

Zhanvozen the police killed scores of striking workers and jailed many others. In Ukraine six young revolutionary comrades are in jail for struggling against the present Ukrainian regime.

Unfortunately due to the present political-economic situation we are not yet able to publish the Russian Edition of NSC. But I am certain that soon we shall overcome this situation.

Now the Catholic World is facing a repetition of Gorbasmus of the Eighties. The present 'hot candidate' for the new Vatican Pope and the papal throne, is a man borne in Czechoslovakia, in the city of Litomerice, and was expelled after WW II as a germ who cooperated with the Nazis.

Since the election in the Czech Republic did not elect Schwarzenberg as President of the Republic, the plan was to revoke the former President Benes Decree - here comes the Church again!

The history of the previous Polish Pope will be repeated in the Austrian colors. Want to bet on it?

Last week I watched local TV program in many sequences about WW II and Goring. You could see and feel their constant effort to clean him of his crimes during WW II. We are facing in the present media here a complete revision of the WW II historical results.

Another example of this trend was an exhibition by the Slovak Government in Bratislava about the war crimes of the Polish, Czech and Slovak war crimes against the German population after WW II. But at this official government sponsored exhibition, there was not a single word about millions of

OBITUARY

PEDRO CASTRO

Dear Michael Lucas and comrades:

I regret to inform you of the death of our comrade Pedro Castro on April 1, 2013 after a long illness. He was born in Salvador, Bahia, Brazil in 1934 and died at the age of 79. He was a PHD Professor at the Universidade Federal Fluminense of Rio de Janeiro. Castro was one of thousands of Brazilian victims of the military dictatorship that ruled Brazil from 1964 to 1985. He was arrested and tortured by the "Pretorian Guard" (the militaries).

In the last years of his life, Pedro Castro devoted himself to the unity of all the communist parties to better develop the struggles against al conservative, reactionary, rightist parties and forces.

As a true Communist he dedicated his life for the liberation of the working class and people from the bondage of the capitalist system.

Pedro Castro and I had the great honor when we accepted your invitation to take part as delegates in the First World Congress for Friendship and Solidarity with the Soviet People in Toronto, Canada in 2001.

OVER 70,000 MERCENARIES HAVE TRIED TO OVERTHROW THE SYRIAN GOVERNMENT

These foreign US-backed and funded mercenaries came from 30 countries. This includes at least 600 mercenaries from Europe. According to the research study done for the International Center for Studies on Extremism at the Kings College in London, England. These foreign troops came from 14 countries – particularly from France, Germany, UK, Belgium, Denmark, The Netherlands, Spain, Sweden, Kosovo, Finland, Bulgaria, Austria and Albania.

All these foreign-trained, paid for mercenaries were sent by US Imperialism-EU to Syria to try to overthrow the democratically elected and popular President Bashar al-Assad.

SINCE U.S. INVASION - ONE MILLION ARE DEAD FROM AFGHAN HEROIN

From Voice of Russia - Apr. 3, 2013

The utter and dismal failure of US invasion and the occupation of Afghanistan, was further undermined at the UN Commission on Narcotics and Drugs which met on March 1, at its 56th Session. Opium production, which was practically stopped in Afghanistan in 2001, before the US invasion and occupation. *Now Afghanistan under American occupation, produces over 90% of the world supply of heroin.*

Victor Ivanov of the Russian Federal Drug Control Service, who spoke at this 56th Session, among many relevant facts, he said: "Over 820 tons of heroin makes its way without any control problems from Afghanistan into Europe and Russia every single year! The biggest consumption of heroin is in the United States."

And as long as there is this uncontrolled trafficking, there will be Trillions of illicit \$\$\$ money to fund the US expansionism, illegal invasions and the endless "US War on Terror."
